Foreword

State Legislated Actions on Tobacco Issues (SLATI) 2010 is the American Lung Association's comprehensive annual summary of state tobacco control laws. It provides information on state tobacco control laws in a number of key areas, including smoking restrictions, tobacco taxes, laws restricting youth access to tobacco products and funding for state tobacco prevention and cessation programs as of January 1, 2011.

SLATI has been published every year since 1988 and exclusively by the American Lung Association since 1996. The report is the only resource of its kind—summarizing state tobacco control laws on an annual basis.

Key Highlights of 2010

Smoking Restrictions: Only one state, Kansas, approved legislation prohibiting smoking in almost all public places and workplaces, including restaurants and bars. South Dakota voters also overwhelmingly approved legislation passed by the legislature in 2009, but referred to the November 2010 ballot that closed loopholes in the state's law for restaurants, bars and gaming establishments. By the end of 2010, 27 states¹ and the District of Columbia had laws in effect meeting the American Lung Association's *Smokefree Air Challenge* by passing comprehensive smokefree workplace laws.

However, the pace of states' passage of comprehensive smokefree laws has slowed considerably over the past three years. Only six states approved such laws from 2008 to 2010, while 11 states and the District of Columbia approved comprehensive smokefree laws in 2006 and 2007 alone. The American Lung Association hopes this dramatic slowdown in the number of states going smokefree does not continue.

Meanwhile, the latest Surgeon General's report on tobacco use, *How Tobacco Smoke Causes Disease: The Biology and Behavioral Basis for Smoking-Attributable Disease*, released in December 2010, looked at the science in-depth of how mainstream and secondhand smoke exposure damages the human body. The report concluded that there is no risk-free level of exposure to tobacco smoke, and that inhaling the complex mixture of more than 7,000 chemicals in tobacco smoke causes adverse health outcomes, particularly cancer and cardiovascular and pulmonary diseases.² The Surgeon

General also reiterated that the evidence that secondhand smoke is a serious health hazard is clear, convincing and overwhelming, and workers in all public places and workplaces need and deserve protection from it.

Tobacco Excise Taxes: Six states—Hawaii, New Mexico, New York, South Carolina, Utah and Washington—increased their cigarette taxes in 2010. As of January 1, 2011, the average state cigarette tax stood at \$1.45 per pack—an increase of 11 cents since January 1, 2010, and an increase of over a \$1.00 per pack from 44.6 cents per pack on January 1, 2002.

New York reclaimed the top spot for cigarette tax rates in the country at \$4.35 per pack in 2010, also becoming the first state to have a cigarette tax rate of over \$4.00 per pack. Four other states—Connecticut, Hawaii, Rhode Island and Washington—have cigarette tax rates at or over \$3.00 per pack. South Carolina, which had the lowest cigarette tax in the country for a number of years, increased its cigarette tax by 50 cents in 2010, an over 700 percent increase. This leaves Missouri as the state with lowest cigarette tax at 17 cents per pack. New York City, NY continues to have the highest combined state and local cigarette tax at \$5.85 per pack.

Higher cigarette taxes keep children from starting to smoke, motivate adults to stop and reduce future tobacco-related health care costs.3 For instance, Rhode Island's cigarette tax increased from 71 cents in 2001 to \$3.46 in 2009, and their high school smoking rate has decreased from 24.8 percent in 2001 to 13.3 percent in 2009, one of the lowest in the country.⁴ Cigarette tax increases also raise revenue, a portion of which can and should be used to fund tobacco prevention and cessation programs. In FY2010, seven states—Arizona, California, Colorado, Michigan, Oregon, South Carolina and South Dakota—are funding their entire tobacco prevention and cessation programs through tobacco excise tax revenues. Four more states—Idaho, Louisiana, Oklahoma and Utah—use tobacco tax revenue to partially fund their programs.

Tobacco Control Program Funding: Sadly, the cuts sustained to tobacco prevention and cessation programs in fiscal year 2010 were not restored in fiscal year 2011 (July 1, 2010 to June 30, 2011 in most

states), and several states suffered additional cuts or complete elimination of their programs. Nevada eliminated its remaining funding for tobacco control programs in FY2010 and all funding in FY2011 in a spring 2010 special session, and Ohio provided no new state dollars for tobacco control programs in FY2011. Connecticut and New Jersey also sustained cuts of over 80 percent to their tobacco control programs.

There was some good news as Alaska increased its FY2011 tobacco prevention and cessation funding above the level recommended by the U.S. Centers for Disease Control and Prevention (CDC) when federal funding from CDC is included. The state joined North Dakota as the only other state providing funding at or above CDC's recommended level⁵ in FY2010. South Carolina also allocated \$5 million dollars of cigarette tax revenue from its 50 cent cigarette tax increase to a tobacco prevention and cessation program, an increase of \$3 million in state funding from FY2010.

Evidence shows that tobacco prevention and cessation programs are a wise investment for states. The CDC in its *Best Practices for Comprehensive Tobacco Control Programs*—2007 noted that if all states sustained their recommended level of funding for five years, there would be an estimated five million fewer smokers. As a result, hundreds of thousands of premature tobacco-

related deaths would be prevented. Longer-term investments would have even greater effects. Despite this and other evidence, few states are funding tobacco prevention and cessation programs at levels that would truly make a difference.

This overview summarizes state tobacco control laws in effect in all 50 states and the District of Columbia in the different areas covered by State Legislated Actions on Tobacco Issues (SLATI) as of January 1, 2011.

Restrictions on Smoking in Public Places and Workplaces

All 50 states and the District of Columbia have laws/policies restricting or prohibiting smoking in certain places.

- 27 states—Arizona, California, Colorado, Connecticut, Delaware, Hawaii, Illinois, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Jersey, New Mexico, New York, Ohio, Oregon, Rhode Island, South Dakota, Utah, Vermont, Washington and Wisconsin—and the District of Columbia prohibit smoking in almost all public places and workplaces, including restaurants and bars.
- New Hampshire and North Carolina prohibit smoking in some public places, including all restaurants and bars.
- Four states—Florida, Idaho, Louisiana and Nevada—prohibit smoking in most public places and workplaces, including restaurants, but exempt stand-alone bars;
- 18 states prohibit smoking in some, but not all public places and workplaces and/or limit smoking indoors to designated areas or rooms.

In addition, 13 states partially or totally prevent (preempt) local communities from passing laws/ordinances restricting smoking stronger than state law.

■ Tobacco Excise Taxes

Taxes on Cigarettes:

All 50 states and the District of Columbia impose an excise tax on cigarettes. These taxes range from a high of \$4.35 per pack in New York to a low of \$0.17 per pack in Missouri. The national average for state cigarette excise taxes (as of January 1, 2011) is \$1.45 per pack.

- 6 states—Hawaii, New Mexico, New York, South Carolina, Utah and Washington—increased their tax on cigarettes in 2010.
- 14 states—Arkansas, Connecticut, Delaware, Florida, Hawaii, Kentucky, Mississippi, New Hampshire, New Jersey, North Carolina, Pennsylvania, Rhode Island, Vermont and Wisconsin—as well as the District of Columbia increased their tax on cigarettes in 2009.

Taxes on Tobacco Products Other Than Cigarettes:

Forty-nine states and the District of Columbia have excise taxes on tobacco products other than cigarettes. Pennsylvania is the only state that does not impose a tax on other tobacco products (except little cigars are taxed at the same rate as cigarettes).

- In 30 states, the excise tax is calculated as a percentage of the wholesale sales price to retailers, the manufacturer's invoice price or the price at which the tobacco entered the state.
- 20 states—Alabama, Arizona, Connecticut, Delaware, Iowa, Kentucky, Maine, Montana, Nebraska, New Jersey, New York, North Dakota, Oregon, Rhode Island, Texas, Utah, Vermont, Virginia, Washington and Wyoming—and the District of Columbia tax some or all tobacco products by the weight of the tobacco package.

Youth Access Laws

Age Restrictions on Sales of Tobacco Products:

Federal regulations prohibit the sale of cigarettes and smokeless tobacco (but not cigars or other tobacco products) to persons under age 18. Retailers are required to verify a person's age by photographic identification containing the person's date of birth unless the person is over 26 years of age.

In addition, all 50 states and the District of Columbia prohibit the sale of tobacco products to minors. Most states define minors as persons less than 18 years of age; however, four states—Alabama, Alaska, New Jersey and Utah—define

minors as persons less than 19 years of age. Also:

- 39 states and the District of Columbia require retailers to post signs at or near the point of purchase stating that selling tobacco products to minors is illegal.
- 20 states and the District of Columbia require a person/retail store selling tobacco products to check the identification of a purchaser who appears to be under a certain age.

Minor Purchase/Possession/Use of Tobacco Products:

Forty-five states and the District of Columbia penalize minors for tobacco sales-related offenses. Of these states, 38 states and the District of Columbia prohibit minors from possessing and/or using tobacco products. Penalties for violation often include a fine and/or alternative penalties like performing community service, attending smoking education/cessation programs and/or suspension of a driver's license or learner's permit

Note: Penalizing children has not been proven to be an effective technique to reduce underage tobacco usage. In fact, penalties may adversely affect existing programs that are proven to be effective and are required, such as compliance checks utilizing young people.

Placement of Tobacco Products:

Federal regulations require retailers to sell cigarettes and smokeless tobacco (but not cigars and other tobacco products) only in a direct, face-toface exchange between the retailer and consumer. This means self-service displays of cigarettes and smokeless tobacco are prohibited except in facilities where the retailer ensures that no person younger than 18 is permitted to enter at any time. In addition, 27 states—Alabama, Alaska, Arkansas, California, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Massachusetts, Minnesota, Missouri, Nevada, New Mexico, New York, Oklahoma, Oregon, Pennsylvania, South Dakota, Texas, Utah, Vermont and Wyoming—and the District of Columbia have state laws restricting customer access to cigarettes and/or tobacco products in retail stores.

 Fifteen of these states—Alabama, Alaska, California, Delaware, Idaho, Kansas, Louisiana, Massachusetts, Minnesota, New Mexico, New York, Oklahoma, Oregon, Utah and Wyoming—completely prohibit customers from having direct access to all tobacco products in retail stores, and/or have language prohibiting the use of self-service displays.

State Preemption of Local Laws:

Eighteen states partially or totally prevent (preempt) local communities from passing stronger local laws/ordinances concerning the youth access laws discussed above. In the case of three additional states—California, Massachusetts and Missouri—limited preemption exists for small areas of these youth access laws.

Restrictions on Distribution of Tobacco Product Samples and Minimum Sales Amounts for Tobacco Products

Tobacco Product Samples:

Federal regulations prohibit free samples of cigarettes and limit free samples of smokeless tobacco products to certain age-restricted venues under several conditions.

In addition, 23 states and the District of Columbia have laws restricting where free samples of tobacco products can be distributed to the general public or virtually prohibit the free distribution of tobacco products entirely.

- Minnesota and Massachusetts prohibit the sampling of tobacco products entirely except for single-serving samples distributed in tobacco stores.
- Nebraska prohibits samples, coupons and rebate offers for smokeless tobacco products.
- Oregon prohibits sampling of smokeless tobacco products in places/areas where persons under 21 are allowed to enter.
- Texas prohibits the redemption of coupons, sample cigarettes and tobacco products through the mail or courier delivery.
- 6 states—California, Connecticut, New York, Utah, Washington and Wisconsin—and the District of Columbia prohibit giving away samples except in specific locations such as places inaccessible to minors, and/or in a manufacturer's place of business.
- 4 states—Hawaii, Idaho, Illinois and New Hampshire—prohibit giving away samples of tobacco products in many public places.

■ The remaining 8 states restrict sampling to specific venues or within a certain distance of schools when minors are using them.

All 50 states and the District of Columbia have laws prohibiting the distribution of tobacco products to minors.

Minimum Tobacco Product Sales Amounts:

Federal regulations prohibit manufacturers, distributors or retailers from selling or distributing any cigarette package that contains fewer than 20 cigarettes. Retailers are also prohibited from breaking or otherwise opening any cigarette or smokeless tobacco package to sell or distribute individual cigarettes or any quantity of cigarette tobacco or smokeless tobacco that is smaller than the smallest package distributed by the manufacturer for individual consumer use.

In addition, 31 states and the District of Columbia prohibit selling cigarettes in packs of less than 20 and/or as single cigarettes. Of those:

- 10 states—Alabama, Hawaii, Louisiana, Maine, Montana, New Jersey, Ohio, Rhode Island, Vermont and West Virginia—and the District of Columbia explicitly prohibit cigarette sales in packs of less than 20 and as single cigarettes.
- 14 states—Alaska, Arizona, California, Colorado, Connecticut, Delaware, Iowa, Kentucky, Maryland, New York, North Dakota, Tennessee, Texas and Utah—prohibit cigarettes sales in packs of less than 20, but do not include language prohibiting sales of single cigarettes.
- 7 states—Arkansas, Illinois, Massachusetts, Michigan, Missouri, New Hampshire and Pennsylvania—prohibit sales of single cigarettes, but do not include language prohibiting cigarette sales in packs of less than 20.

In addition, among all 50 states and the District of Columbia:

- 24 states require cigarettes and sometimes other tobacco products to be sold in their original packaging as placed there by the manufacturer. Among these:
 - 7 states make all tobacco products subject to this requirement;
 - 4 states make some or most tobacco products subject to this requirement;

- 13 states make only cigarettes subject to this requirement.
- 9 states prohibit sales of roll-your-own tobacco in an individual package or container that contains less than 0.6 ounces of tobacco.

State Preemption of Local Laws:

Eighteen states partially or totally prevent (preempt) local communities from passing stronger local laws/ordinances concerning sampling and minimum sales amounts of tobacco products. In the case of California, limited preemption exists concerning penalties for violation of certain state youth access laws.

Restrictions on Sales of Tobacco Products in Vending Machines

Vending Machine Placement:

Federal regulations require retailers to sell cigarettes and smokeless tobacco (but not cigars and other tobacco products) only in a direct, face-to-face exchange between the retailer and consumer. This means sales from vending machines selling cigarettes and smokeless tobacco are prohibited except in facilities where the retailer ensures that no person younger than 18 is permitted to enter at any time.

In addition, 48 states and the District of Columbia have laws restricting the placement of tobacco product vending machines; only New Hampshire and New Jersey do not.

- Idaho and Vermont completely prohibit the sale of tobacco products through vending machines.
- 19 states prohibit tobacco vending machines everywhere except for bars, taverns and other places where minors are not permitted by law.
- Nevada prohibits vending machines except in public areas where people under 21 years of age are prohibited from loitering.
- 26 states and the District of Columbia otherwise restrict vending machine access or locations.

Posting of Warning Signs on Vending Machines:

Twenty-four states and the District of Columbia require owners, operators and/or supervisors of tobacco product vending machines to post warning signs on the machines advising of age restrictions for purchase or sales.

State Preemption of Local Laws:

Eighteen states partially or totally prevent (preempt) local communities from passing stronger local laws/ordinances concerning placement of and required sign posting on tobacco product vending machines. In the case of California, limited preemption exists concerning penalties for violation of certain state youth access laws.

Tobacco Product Sales Licensing Requirements

All 50 states and the District of Columbia require the licensing of certain entities that sell, distribute or manufacture tobacco products.

More specifically:

- 37 states and the District of Columbia require retailers that sell cigarettes to obtain a license/permit either from the state or the county/city where they do business and 30 states require the same of retailers of other tobacco products.
- All 50 states and the District of Columbia require distributors and/or wholesalers of cigarettes to obtain a state license/permit and 41 states require the same of distributors and/or wholesalers of other tobacco products. The requirement for other tobacco product wholesalers/distributors to obtain a license/permit in Georgia only applies to cigars.
- Laws in 27 states and the District of Columbia include provisions that penalize a retailer who furnishes tobacco products to minors by a possible suspension or revocation of their license generally after multiple offenses.

Smoking Protection Laws

Regrettably, 29 states and the District of Columbia have passed some form of smoker protection law that makes smokers a protected class legally, which does not allow businesses to make decisions about hiring, compensation, etc. based on an employees' use or non-use of tobacco products. The American Lung Association does not support elevating smokers to a protected class.

Advertising and Promotion

Eight states and the District of Columbia have some state restrictions on tobacco advertising and promotion. Some of these advertising restrictions may be part of state law but not enforced due to a 2001 Supreme Court decision striking down advertising restrictions in Massachusetts.

- Texas prohibits tobacco advertising within 1,000 feet of a church, public or private school and requires purchasers of tobacco advertising to pay a fee of 10 percent of the gross sales price of any tobacco advertising.
- California restricts tobacco advertising in all state-owned buildings and billboard advertising within 1,000 feet of any public school or playground.
- Kentucky prohibits tobacco billboard advertising within 500 feet of schools.
- Illinois, Michigan and West Virginia require health warnings to be posted on smokeless tobacco billboard advertising.
- Utah prohibits the display on any billboard, streetcar, sign, bus or placard of an advertisement for tobacco products, except that dealers in tobacco products may have a sign at their place of business indicating that they sell tobacco.
- Delaware prohibits advertising any tobacco products within 200 feet of any public or private school but does not prohibit the display of any message or advertisement opposing the use of tobacco products. In addition, any such message or advertisement may not contain the brand name of any tobacco product or the name of any tobacco company.
- The District of Columbia prohibits all tobacco advertising on the Washington Metropolitan Area Transit System, which operates its bus and subway systems.

■ Tobacco Product Disclosure

Six states have state laws requiring disclosure of certain ingredients in tobacco products. Requirements include:

- Massachusetts and Texas require tobacco manufacturers to disclose any added constituent of tobacco products other than tobacco, water and reconstituted tobacco sheet made wholly from tobacco.
- Massachusetts, Texas and Utah require disclosure of the nicotine yield for each brand of cigarettes.

- Minnesota and Utah require tobacco manufacturers to disclose any of the following substances in their unburned or burned states: ammonia or any compound of ammonia, arsenic, cadmium, formaldehyde and lead.
- New Hampshire requires its state
 Department of Health and Human
 Services to obtain from the Massachusetts
 Department of Public Health a list of additives for each brand of tobacco products sold.
- Connecticut required its Commissioner of Public Health to issue regulations concerning how the commissioner will obtain nicotine yield ratings for each brand of tobacco product.

■ Tobacco Divestment

Massachusetts passed a state law to prohibit new public pension funds from investing in stocks, securities or other obligations of any company that derives more than 15 percent of its revenue from the sale of tobacco products and requires divestment of existing investments.

In Minnesota, the Minnesota State Investment Board passed a resolution in 1998 requiring all equity managers to divest shares of any company which obtained more than 15 percent of its revenues from the manufacture of consumer tobacco products, which was accomplished by June 30, 2001.

■ Tobacco Liability

Industry Protection:

Thirty-five states have enacted legislation that places a cap on the bond required of a defendant to appeal lawsuit judgments that award money damages to plaintiffs. Of these states:

- 14 states apply these caps on appeal bonds to all lawsuit judgments.
- 14 states apply the caps only to lawsuit judgments involving companies that signed the Master Settlement Agreement/separate state tobacco settlement.
- 3 states—Florida, Hawaii and Oklahoma have separate laws/parts of laws applying a cap to both tobacco settlement signatories and all other parties.
- 4 states—Georgia, Idaho, Kentucky and

Mississippi—apply these caps to the punitive damages portion of a lawsuit judgment only.

The amount of the cap on bonds to appeal lawsuit money judgments varies from state to state:

- 3 states—California, Minnesota and Oregon—have capped the appeal bond required at \$150 million;
- Alabama has set the limit at \$125 million;
- 8 states—Florida, Iowa, Kentucky, Mississippi, New Mexico, Pennsylvania, Washington and Wisconsin—have set the limit at \$100 million;
- Tennessee has set the limit at \$75 million;
- 7 states—Louisiana, Missouri, Nebraska, Nevada, New Jersey, Ohio and Rhode Island—have set the limit at \$50 million.
- 11 states—Arkansas, Colorado, Georgia, Indiana, Kansas, Michigan, North Carolina, Oklahoma, South Dakota, Texas and Virginia have imposed a limit of \$25 million.
- Hawaii has set the limit at \$150 million for Master Settlement Agreement signatories and \$25 million for all other lawsuit judgments.
- West Virginia has set the limit at \$100 million each for compensatory and punitive damages.
- Idaho has set the level at \$1 million for punitive damages only, while a judgment in South Carolina is automatically appealed.

Almost all of these laws include an exception for intentional dissipation of assets by the defendant.

No appeal bond is required to appeal a lawsuit judgment in five states—Connecticut, Maine, Massachusetts, New Hampshire and Vermont.

Use of Tobacco Settlement Dollars

Forty-six states and the District of Columbia receive annual payments from certain cigarette companies as part of the Master Settlement Agreement (MSA), a lawsuit settlement signed in 1998 between Attorneys General in those states and the companies. Four states—Florida, Minnesota, Mississippi and Texas—settled their lawsuits separately with the cigarette companies prior to the MSA.

States account for and use the annual payments from the MSA in a variety of ways. Eighteen states—Alaska, Arkansas, California, Illinois, Iowa, Louisiana, Maryland, Michigan, New Jersey, New York, Ohio, Rhode Island, South Carolina, South Dakota, Virginia, Washington, West Virginia and Wisconsin—and the District of Columbia have set up arrangements to sell to specified entities all or part of their annual Master Settlement Agreement revenue, which is also called securitization.

Securitization involves selling or pledging expected tobacco settlement payments to a state-created corporate entity for the purpose of issuing bonds backed by tobacco settlement funds. The state then receives a lump sum payment up front.

■ Fire Safety Standards for Cigarettes

Forty-nine states and the District of Columbia have laws in effect setting fire-safety standards for cigarettes to help prevent cigarette-caused fires. One remaining state—Wyoming—has enacted legislation setting fire safety standards for cigarettes that had not taken effect yet as of January 1, 2011. The fire safety standards in all these states are identical to the standard in the first state to implement this type of legislation, New York.

■ Tobacco Control Program Funding

Forty-seven states and the District of Columbia have allocated money from annual Master Settlement Agreement payments, tobacco excise tax revenues and/or general fund revenue to tobacco control and prevention programs in FY2011 (July 1, 2010 to June 30, 2011 for most states).

- The amounts range from \$222,000 for tobacco prevention and cessation programs in Tennessee to \$75 million in California.
- Nevada, New Hampshire and Ohio are spending no new state money for tobacco prevention and cessation programs this fiscal year.
- In terms of a percentage of the level recommended by the Centers for Disease Control and Prevention (CDC), Alaska ranks highest in its allocation of funds for tobacco prevention and cessation programs, and is one of only two states (North Dakota is the other) that fund their tobacco prevention and cessation programs at or above the CDC-recommended level.

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Annual Master Settlement Agreement dollars in Colorado are deposited in the Tobacco Litigation Settlement Cash Fund, and then distributed to a number of different programs and funds as specified below. In the past few years, some of the dollars have been transferred to the state general fund to deal with a budget deficit.

COLO. REV. STAT. ANN. § 24-22-115 (2009).

Use of Tobacco Settlement Dollars— Detailed Information

The Tobacco Litigation Settlement Cash Fund was created to receive annual Master Settlement Agreement payments. Interest from the investment of these funds starting in FY2002 is credited to the Breast and Cervical Cancer Prevention and Treatment Fund. This money is available for expenditure by the legislature each year on specified programs, but in FY2007 and FY2008, up to

\$1 million shall be transferred to the Colorado Autism Treatment Fund at the end of the fiscal year. Any money in the fund left unspent at the end of a fiscal year is transferred to the Short-Term Innovative Health Program Grant Fund. The Healthcare Supplemental Appropriations and Overexpenditures Account was also created in the cash fund. Interest earned on any moneys in the account is credited to the Breast and Cervical Cancer Prevention and Treatment Fund. From the April 2007 MSA payment, \$24.4 million of money not required for other programs shall be credited to the account, and is available for over-expenditures or supplemental appropriations to the Children's Basic Health Plan Trust or Colorado Benefits Management System as specified for FY2007, FY2008, FY2009 or FY2010. If not appropriated/ used as specified by April 15, 2010, the money will be transferred to the state general fund.

COLO. REV. STAT. ANN. § 24-22-115 (2009).

All disputed MSA payments as defined received from July 1, 2008 to June 30, 2011 are transferred to the general fund. Of the MSA payments received in FY2009 that are not disputed payments, \$15.4 million in strategic contribution payments shall be allocated in FY2009 and \$84.6 million of the remaining MSA payments shall be allocated in FY2010 to programs as specified in subsections 1 and 1.5 of section 24-75-1104.5 Colorado Revised Statutes. All remaining MSA dollars received in FY2009 that are not disputed payments and not allocated to tobacco settlement programs are transferred to the state general fund. On June 1, 2009, \$1.1 million was transferred from the Tobacco Litigation Settlement Cash Fund to the state general fund; to accommodate the transfer, the allocation to the Short-Term Innovative Health Program Grant Fund shall be reduced by \$1.1 million in FY2010.

COLO. REV. STAT. ANN. § 24-75-1104.5(5&6) (2009).

Except as otherwise specified above, MSA money in the Tobacco Litigation Settlement Cash Fund is distributed to the following programs per fiscal year starting in FY2004, except for \$15.4 million in strategic contribution payments and in FY2011 and each fiscal year thereafter the lesser of \$65 million or all other settlement moneys shall be allocated in each fiscal year they are received by the state and in FY2010 the lesser of \$65 million or all other settlement moneys shall be transferred

to the state general fund on June 30, 2010 and not allocated: 1) 12 percent to the Colorado Nurse Home Visitor Program, not to exceed \$19 million in any fiscal year (changes in subsequent fiscal years); 2) 3 percent not to exceed \$5 million to the Comprehensive Primary and Preventive Care Grant Program, except in FY2010, the transfer was limited to all grant monies committed on or before September 30, 2009, the remainder was transferred to the state general fund and in FY2011 all monies were transferred to the state general fund; 3) 24 percent not to exceed \$30 million to the Children's Basic Health Plan Trust; 4) \$200,000 to the State Dental Loan Repayment Program; 5) 8 percent not to exceed \$8 million to the Fitzsimmons Trust Fund; 6) 1 percent not to exceed \$1 million in any fiscal year to the Colorado state veterans trust fund; 7) 5 percent not to exceed \$8 million to the Readto-Achieve Program; 7) 4 percent not to exceed \$5 million to the Tony Grampsas Youth Services Program; 8) 3.5 percent not to exceed \$5 million to the AIDS Drug Assistance Program, except in FY2009, the transfer was reduced by \$65,000, which was transferred to the state general fund; 9) \$300,000 to pay the state's share of the "Child Mental Health Treatment Act"; 10) \$1 million to the Autism Treatment Fund to pay a portion of the state's share of the annual funding required by the "Home and Community Based Services for Children with Autism Act"; and 11) 2 percent not to exceed \$2 million to the Colorado HIV and AIDS Prevention Grant Program.

COLO. REV. STAT. ANN. § 24-75-1104.5(1) (2010).

In FY2008 and each fiscal year thereafter, any MSA payments received and allocated in the current fiscal year and the portion of all other settlement monies received by the state in the preceding fiscal year remaining after the programs in the paragraph above have been fully funded are distributed as follows: 1) 49 percent to the University of Colorado at Denver and Health Sciences Center; 2) 12 percent to Offender Mental Health Services Fund; 3) 8.5 percent to the Colorado Indigent Care Program through a special account in the Comprehensive Primary and Preventative Care Fund, except in FY2010 all this money was transferred to the state general fund; 4) 7 percent to the Public Health Services Support Fund, except in FY2009, the transfer was reduced by \$140,070, which was transferred to the state general fund; 5) 13.5 percent to the

70

 \triangleright

Children's Basic Health Plan Trust; 6) 4.5 percent to the Supplemental State Contribution Fund; 7) 4 percent to the Supplemental Tobacco Litigation Settlement Moneys Account of the Colorado Immunization Fund; 8) 3 percent to the Division of Alcohol and Drug Abuse as specified, except in FY2009, the transfer was reduced by \$61,186, which was transferred to the state general fund; 9) 6 percent to the Short-Term Innovative Health Program Grant Fund plus additional monies as specified, and 10) 1 percent to the Supplemental Tobacco Litigation Settlement Moneys Account of the Pediatric Specialty Hospital Fund, except in FY2009 \$317,000 was transferred, in FY2010 \$283,000 was transferred and in FY2011 \$307,000 was transferred with the difference in each fiscal year being transferred to the state general fund.

COLO. REV. STAT. ANN. § 24-75-1104.5(1.5) (2010).

The Tobacco Litigation Settlement Trust Fund was also created. In FY2006 only, the principal of the trust fund will be up to 21 percent of the money based on the previous fiscal year settlement payment amount minus the required appropriation to the general fund. The principal of the fund shall not be expended for any purpose except that money may be appropriated to the Children's Basic Health Plan Trust. The interest shall be credited to the fund, but shall be available for expenditure when the amount of interest is sufficient to fund current programs funded through MSA money.

COLO. REV. STAT. ANN. § 24-22-115.5 (2007).

■ Laws Restricting Youth Access to Tobacco Products

Minimum Age to Sell Tobacco Products to Minors

18

Compliance/Enforcement

The Commissioner of Revenue Services shall prepare a report on enforcement efforts undertaken to enforce youth access laws. Such report shall include the number of unannounced inspections conducted by the commissioner, a summary of enforcement actions taken pursuant to said sections and an assessment of the progress made in the previous fiscal year in reducing the availability of tobacco products to minors.

CONN. GEN. STAT. § 12-315a (1998).

Penalties for Sales to Minors

Any person employed by a dealer or distributor who sells, gives, or delivers tobacco in any form to a minor, other than a minor who is delivering or accepting delivery in their capacity as an employee, shall be assessed a civil penalty by the Commissioner of Revenue Services of not more than \$200 for the first offense and \$250 for subsequent offenses within 18 months. Any dealer or distributor who has sold, given or delivered cigarettes or tobacco products to a minor, other than a minor who is delivering or accepting delivery in their capacity as an employee, or if their employee has done so, shall be assessed a civil penalty of \$350 for the first violation, \$750 for the second violation within 18 months, and a fine of \$750 and license suspension for at least 30 days for the third offense within 18 months.

CONN. GEN. STAT. § 12-295a(b&c) (2007).

If the owner of an establishment where a cigarette vending machine is located has sold, given or delivered or allowed to be sold, given or delivered tobacco products to a minor, other than a minor who is delivering or accepting delivery in their capacity as an employee, from that machine, they are subject to the same civil penalties as dealers of tobacco products above, except on a third violation within 18 months, the vending machine will be immediately removed from the establishment, and may not be placed there again for a period of one year.

Any person who sells, gives, or delivers tobacco to a minor shall be fined not more than \$200 for the first offense, \$350 for a second offense within 18 months, and not more than \$500 for each subsequent offense within 18 months. A seller or seller's agent or employee may perform a transaction scan to check the validity of a driver's license or identity card presented by a cardholder as a condition for selling, giving away, or otherwise distributing tobacco to the cardholder. It is an affirmative defense to prosecution if all the following occurred: A card holder attempting to purchase tobacco products presented an official piece of identification; a transaction scan of the ID indicated that it was valid; tobacco products were sold or given away in reasonable reliance upon the ID presented and the completed scan. However, this does not excuse the seller from exercising reasonable diligence to determine whether the person attempting to purchase tobacco products is 18 years of age or older and whether the description and picture appearing on the ID presented by a card holder is that of the card holder.

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

All of Connecticut's annual Master Settlement Agreement payments are deposited in a Tobacco Trust Fund. Most of the money is transferred to the state general fund from there, but a portion of the money goes to several funds, including the Tobacco and Health Trust Fund where funding for tobacco control programs is allocated from.

CONN. GEN. STAT. §§ 4-28e (2005) & 4-28f (2008).

Use of Tobacco Settlement Dollars— Detailed Information

A Tobacco Settlement Fund was created where all annual Master Settlement Agreement (MSA) payments are deposited. In FY2002, and each fiscal year thereafter, \$12 million is dedicated to the Tobacco and Health Trust Fund. \$4 million is dedicated to the Biomedical Research Trust Fund, an unspecified amount each year to the general fund, and any remainder to the Tobacco and Health Trust Fund. In addition to the above, in FY2005, and each fiscal year thereafter, \$100,000 is appropriated to the Department of Revenue Services and \$25,000 is appropriated to the office of the Attorney General for the enforcement of MSA complimentary enforcement legislation and in FY2008 to FY2015, \$10 million is transferred to the Stem Cell Research Fund.

CONN. GEN. STAT. § 4-28e (2005).

A Tobacco and Health Trust Fund was created, which consists of money transferred from the Tobacco Settlement Fund, and money from various other sources. The trust fund is administered by a board of 17 trustees, except the board's duties were suspended during FY2004 and FY2005. In FY2009 and each fiscal year thereafter, the board may recommend authorization of disbursement for such purposes of up to one-half of the annual disbursement from the Tobacco Settlement Fund to the Tobacco and Health Trust Fund from the previous fiscal year, pursuant to section 4-28e, up to a maximum of \$6 million per fiscal year, and the net earnings from the principal of the trust fund from the previous fiscal year.

CONN. GEN. STAT. § 4-28f (2008).

Note: For FY2010 and FY2011, \$1,991,982 and \$1,841,982 respectively was transferred from the Tobacco and Health Trust Fund to various specified programs, and an additional \$10 million will be transferred after May 1 of each fiscal year to the state general fund.

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

The District of Columbia has sold the rights to almost all of the annual payments it was supposed to receive from the Master Settlement Agreement (MSA) to a Tobacco Settlement Financing Corporation for lump sum payments up front, see Securitization section below for more details. A portion of the money from one of the lump sum payments was put into a Community Health Care Financing Fund, and some money has been allocated from that fund for city tobacco prevention programs.

Use of Tobacco Settlement Dollars— Detailed Information

A Community Health Care Financing Fund was established within the city general fund where proceeds from the 2006 sale of future MSA payments and other revenue as specified was deposited. Money in the fund shall be used to directly pay to promote health care and for the delivery of health care related services in the District, including the construction of health care facilities and the operation of health care related programs. The monies were then allocated for a number of specific purposes, including a three-year tobacco prevention and cessation program called the DC Tobacco-Free Families Campaign. That program is no longer operating due to loss of funding, but additional money has been allocated from the fund for tobacco control programs/initiatives. See law cited below for more details.

DC CODE ANN. §§ 7-1931 & 1932 (2007).

Securitization

In 2000, the District of Columbia securitized most of its Master Settlement Agreement revenue, and in 2006 transferred additional money to the Tobacco Settlement Financing Corporation. Proceeds from the initial bond sale went into a trust to pay off some of the city's debt, and an additional bond sale by the Tobacco Settlement Financing Corporation was authorized in 2006 to finance the costs of the National Capital Medical Center, healthcare related issues, other capital projects, or for debt defeasance.

DC CODE ANN. §§ 7-1801.01 et seq. & 7-1831.01 et seq. (2006).

■ Fire Safety Standards for Cigarettes

Law Setting Fire Safety Standard for Cigarettes

DC CODE ANN. §§ 7-1751 to 7-1757 (2009).

Penalties for Fire Safety Violations

A manufacturer or wholesale dealer, who knowingly fails to comply with any of the provisions of this act, or regulations promulgated pursuant to this act, shall be subject to a civil penalty not to exceed \$10,000 for each violation, not to exceed \$100,000 during any 30-day period. A retail dealer, who knowingly fails to comply with any of the provisions of this act, or regulations promulgated pursuant to this act, shall be subject to a civil penalty not to exceed \$5,000 for each violation, not to exceed \$25,000 during any 30-day period. Each day of violation shall constitute a separate violation and, unless provided otherwise by regulation, the prescribed penalty shall be applicable to each separate violation. In addition to any other penalty, any corporation, partnership, sole proprietor, limited partnership, or association engaged in the manufacture of cigarettes that knowingly makes a false certification shall be subject to a civil penalty of at least \$75,000 and not to exceed \$250,000 for each such false certification.

Laws Restricting Youth Access to Tobacco Products

Minimum Age to Sell Tobacco Products to Minors

18

Compliance/Enforcement

The Division of Alcoholic Beverages and Tobacco is the designated enforcement authority for all youth access laws and the sign posting requirement. Law enforcement officers may also enforce all youth access laws. A county or municipality may designate certain of its employees or agents as tobacco product enforcement officers. An applicant for a permit, by accepting the permit when issued, agrees that the place or premises covered by the permit is subject to inspection and search without a search warrant by the division or its authorized assistants, and by sheriffs, deputy sheriffs, or police officers, to determine compliance with this chapter.

FLA. STAT. ch. 569.004, 569.12, & 569.14 (1997).

Penalties for Sales to Minors

It is unlawful to sell, deliver, barter, or furnish, directly or indirectly, any tobacco product to any person less than 18 years of age. Violation is a misdemeanor of the second degree punishable by a fine of \$500, repeat violations within one year are a misdemeanor of the first degree punishable by a \$1,000 fine for a second violation, \$2,000 fine and 20 day suspension of the retailer's permit for a third violation, and revocation of a retailer's cigarette permit for a fourth and subsequent violations. All civil penalties may be substituted with license or permit suspensions using the ratio of one day for each \$50. A person charged with a violation has a complete defense if a prudent person would believe the buyer or recipient to be 18 years of age or older; the buyer falsely evidenced that they were 18 years of age or older; and carefully checked specified forms of identification and acted in good faith and in reliance upon the representation and appearance of the buyer or recipient in the belief that the buyer or recipient was 18 years of age or older.

FLA. STAT. ch. 569.101 (1997) & FL ADMIN. CODE § 61A-2.022 (1997).

The Division of Alcoholic Beverages and Tobacco may mitigate penalties imposed against a dealer because of an employee's illegal sale of a tobacco product to a minor if they qualify as a responsible retail dealer; the dealer provided the training program required to the employee before the violation occurred; and the dealer had no knowledge of that employee's violation at the time of the violation and did not direct, approve, or participate in the violation.

FLA. STAT. ch. 569.008 (1997).

Sign Posting Requirements

Any dealer that sells tobacco products shall post a clear and conspicuous sign in each place of business stating that the sale of tobacco products to persons under 18 is against Florida law and proof of age is required for purchase. At the check-out counter a sign must contain the following language: "IF YOU ARE NOT BORN BEFORE THIS DATE {INSERT DATE AND YEAR} YOU CANNOT BUY TOBACCO PRODUCTS." Failure to comply with this requirement is a misdemeanor of the second degree punishable by a \$500 fine.

FLA. STAT. ch. 569.14 (1997).

Photo Identification Requirements to Buy Tobacco Products

No state law/regulation

Purchase/Possession of Tobacco Products by Minors

Penalty for the first violation within a 12-week period is 16 hours of community service or a \$25 fine and the minor must attend a school approved anti-tobacco program. Penalty for the second violation in a 12-week period is a \$25 fine. Third or subsequent violations within a 12-week period can result in suspension or revocation of a person's driver's license. Any law enforcement officer designated as a tobacco product enforcement officer is authorized to issue a citation to minors possessing or attempting to purchase tobacco products.

FLA, STAT, ch. 569.11 (2001).

Placement of Tobacco Products

The sale or delivery of tobacco products is prohibited, except when under the direct control or line of sight of the dealer or the dealer's agent or employee. These provisions shall not apply to an establishment that prohibits persons less than 18 years of age on the licensed premises, or to the sale or delivery of cigars and pipe tobacco. Violation is subject to an administrative fine of up to \$1,000 and possible suspension of the permit to sell tobacco products.

FLA. STAT. ch. 569.006 & 569.007 (1997).

Internet Sales of Tobacco Products

A retailer must obtain an appropriate license from the Division of Alcoholic Beverages and Tobacco before accepting a delivery sale of tobacco products defined as sales of tobacco products by phone, fax, mail, delivery service or the Internet. Delivery sales of tobacco products to persons under 18 are prohibited. Each person accepting an order for a delivery sale must comply with: 1) specific age verification requirements, including obtaining a certification with certain information from the prospective customer and making a good faith effort to verify the information in the certification against a commercially available database as specified or by obtaining a photocopy or

other image of government-issued ID; 2) specific disclosure requirements; 3) specific shipping requirements, including use of a method of mailing, shipping, or delivery which obligates the delivery service to require a person over 18 to sign for the shipping container and show photo ID if they appear to be under age 27; 4) specific registration and reporting requirements; 5) specific tax collection requirements; 6) specific licensing and tax stamp requirements; and 7) all laws of this state generally applicable to sales of tobacco products occurring entirely in this state which impose excise taxes and assessments. Violation of the above requirements by an adult is a misdemeanor of the first degree punishable as specified and is subject to: a \$1,000 fine or five times the retail value of the tobacco products involved, whichever is greater, for a first offense; and a \$5,000 fine or five times the retail value of the tobacco products involved, whichever is greater, for a second or subsequent offense. An adult knowingly submitting a false certification is also a misdemeanor of the first degree punishable as specified and is also subject to for each violation a fine of \$10,000 or five times the retail value of the tobacco products involved, whichever is greater. Violation by a person under 18 is a misdemeanor of the 3rd degree punishable as specified.

FLA. STAT. ch. 210.095 (2009).

Note: Some parts of this law may not be able to be enforced due to the U.S. Supreme Court decision in Rowe v. New Hampshire Motor Transport Association, decided February 20, 2008.

Other Youth Access Laws and Provisions

Retail dealers can qualify as responsible retail tobacco products dealers if they provide a training program for their employees that addresses the use and sale of tobacco products, including the laws concerning sales to minors and methods and procedures to prevent such sales.

Liability

Tobacco Industry Liability

In any civil action involving a signatory or a successor, parent or affiliate of a signatory to Florida's tobacco settlement agreement, the bond required to be furnished during the pendency of all appeals or discretionary appellate reviews of any judgment in such litigation shall be set pursuant to applicable laws or court rules, except that the total cumulative value of the bond to stay execution of the judgment may not exceed \$100 million for all appellants collectively, regardless of the total value of the

judgment. In civil actions against the same entities above, brought by or on behalf of persons who claim or have been determined to be members of a former class action that was decertified in whole or in part, the trial courts shall automatically stay the execution of any judgment, upon provision of security as required, see statute cited for further details. If, after notice and hearing, a plaintiff proves by a preponderance of the evidence that a defendant who posted such bond or equivalent surety is purposefully dissipating assets outside the ordinary course of business to avoid payment of the judgment, the court may enter necessary orders as to that defendant to protect the plaintiff, including an order that the bond or equivalent surety be posted in an amount up to the full amount of the judgment against that defendant. This section does not apply to any past, present, or future action brought by the State of Florida against one or more signatories to the settlement agreement.

FLA. STAT. ch. 569.23 (2009).

In any civil action that is brought as a certified class action, the trial court, upon the posting of a bond or equivalent surety as provided in this section, shall stay the execution of any judgment, or portion thereof, entered on account of punitive damages pending completion of any appellate review of the judgment. The required bond or equivalent surety acceptable to the court for imposition of the stay shall be the lower of: the amount of the punitivedamages judgment, plus twice the statutory rate of interest; or 10 percent of the net worth of the defendant as determined by applying generally accepted accounting principles to the defendant's financial status as of December 31 of the year prior to the judgment for punitive damages; provided that in no case shall the amount of the required bond or equivalent surety exceed \$100 million, regardless of the amount of punitive damages. If, at any time after notice and hearing, the court finds that a defendant who has posted a bond or equivalent surety is purposefully moving assets with the intent to avoid the punitive damages judgment, the court shall increase the bond or equivalent surety to the amount of the punitive damages judgment, plus twice the statutory rate of interest. If the defendant does not post the additional bond required by the court, the stay shall be revoked.

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Money from the state of Florida's tobacco settlement is initially deposited into a trust fund in the Department of Financial Services, and then transferred to a number of trust funds from there. Fifteen percent of the money is required to be allocated to a state tobacco prevention and control program by a constitutional amendment approved in 2006.

FL CONST. Art. X § 27 (2006) & FLA. STAT. ch. 17.41 (2004), ch. 20.195 (2003), ch. 20.425 (2003), ch. 20.435(g) (2004), ch. 20.1971 (2005), ch. 381.84 (2007) & ch. 430.42 (2003).

Note: Florida was one of four states that settled separately in its lawsuit with the major tobacco companies, prior to the Master Settlement Agreement.

Use of Tobacco Settlement Dollars— Detailed Information

Florida voters approved a constitutional amendment in November 2006 that will dedicate 15 percent of future tobacco settlement payments, adjusted for inflation each year, to the state tobacco control and prevention program. Implementing legislation was approved in May 2007 and the program took effect in the fiscal year starting July 1, 2007 (FY2008).

FL CONST. Art. X § 27 (2006) & FLA. STAT. ch. 381.84 (2007).

Money from the state of Florida's tobacco settlement is initially deposited into the Department of Financial Services Tobacco Settlement Clearing Trust Fund. Monies are then allocated to the Department of Health Tobacco Settlement Trust Fund, the Department of Children and Family Services Tobacco Settlement Trust Fund, the Agency for Healthcare Administration Tobacco Settlement Trust Fund, the Department of Elderly Affairs Tobacco Settlement Trust Fund, the Biomedical Research Trust Fund in the Department of Health or the Agency for Persons with Disabilities Tobacco Settlement Trust Fund as appropriated by the legislature.

FLA. STAT. ch. 20.195 (2003), ch. 20.425 (2003), ch. 17.41 (2004), ch. 430.42 (2003), ch. 20.435(g) (2004) & 20.1971 (2005).

In 1999, the legislature established the Lawton Chiles Endowment Fund for Health & Human Services, and transferred \$1.1 billion in FY2000, and \$200 million in FY2001, FY2002 & FY2003

from the Tobacco Settlement Clearing Trust Fund. The earnings of the endowment are appropriated through the general budget process to various agency trust funds by the legislature to help fund specified programs. However, appropriations bills passed in 2008 and 2009 allowed some principal in the fund to be diverted to other programs/purposes.

FLA. STAT. ch. 215.5601 (2004); H.B. 5001 enacted 6/11/08 and effective 6/11/08 and 7/1/08 & S.B. 2 (first special session 2009), sect. 52 enacted 1/27/09 and effective 6/15/09

Securitization

Created the Tobacco Settlement Financing Corporation as a not-for-profit public benefits corporation to purchase any or all of the state's right to the tobacco settlement agreement and issue bonds to pay the purchase price therefore which will be used to fund the Lawton Chiles Endowment Fund. Issuance of bonds by the Corporation is subject to approval by the legislature. The total principal amount of bonds issued shall not exceed \$3 billion and the amount of bonds issued in any single fiscal year shall not exceed \$1.5 billion beginning with FY 2001.

FLA. STAT. ch. 215.56005 (2003).

Violation is a misdemeanor. This shall not apply with respect to the sale of cigarettes, tobacco products, or tobacco related objects by a person when such person has been furnished with proper identification showing that the person to whom the cigarettes, tobacco products, or tobacco-related objects are sold is 18 years of age or older.

Liability

Tobacco Industry Liability

In civil litigation under any legal theory involving a signatory, a successor of a signatory, or an affiliate of a signatory to the Master Settlement Agreement (MSA), the supersedeas bond to be furnished to stay the execution of the judgment during the entire course of appellate review shall be set in accordance with applicable laws or court rules, except that the total bond that is required of all appellants collectively shall not exceed \$150 million, regardless of the amount of the judgment. If an appellee proves by a preponderance of the evidence that an appellant is dissipating assets outside the ordinary course of business to avoid the payment of a judgment, a court may require the appellant to post a bond in

an amount up to the full amount of the judgment. HAW. REV. STAT. § 328L-7 (2004).

In any civil action brought under any legal theory, the amount of a supersedeas bond or other form of security necessary to stay execution of a judgment granting legal, equitable, or any other form of relief during the entire course of all appeals or discretionary review of that judgment by all appellate courts shall be set in accordance with applicable law, except that the total amount of the supersedeas bond or other form of security that is required of any party shall not exceed \$25 million regardless of the amount of the judgment that is appealed. If the party posting the bond is a "small business concern," the required supersedeas bond is capped at \$1 million. If a party in whose favor the judgment has been entered proves to a court by a preponderance of the evidence that an appellant who has posted a supersedeas bond is intentionally dissipating assets outside the ordinary course of its business for the purpose of avoiding payment of the judgment, a court may require the appellant to post a supersedeas bond in an amount up to the total amount of the judgment appealed. This statute does not apply to MSA signatories, which are covered by a separate, existing statute (see above).

Laws Restricting Youth Access to Tobacco Products

Minimum Age to Sell Tobacco Products to Minors

18

Compliance/Enforcement

The Department of Health and Welfare must conduct at least one random, unannounced inspection per year at all locations where tobacco products are sold or distributed at retail to ensure compliance. These inspections must be done with the assistance of a minor except permittees that hold a "minor exempt permit." A "minor exempt permittee" is a permittee whose revenues from the sale of alcoholic beverages for on-site consumption comprise at least 55 percent of total revenues; or whose products and services are primarily obscene, pornographic, profane or sexually oriented; or if minors are not allowed in the location and such prohibition is posted clearly on all entrance doors. Minors may assist with random, unannounced inspections with the written consent of a parent or legal guardian. When assisting with these inspections, minors shall not provide false identification, nor make any false statement regarding their age. Each year, the department shall conduct random, unannounced inspections equal to the number of permittees multiplied by the violation percentage reported for the previous year multiplied by a factor of ten.

IDAHO CODE § 39-5710 (2003).

Penalties for Sales to Minors

It is illegal to sell, distribute or offer tobacco products to minors. For a non-permittee, selling or distributing tobacco products to a minor is subject to a fine of \$100. Any permittee who sells or distributes tobacco products to minors shall be notified in writing about the potential fines for further violations for a first violation. For a second violation, a permittee shall not be fined if the permittee can show that a training program was in place for the employee and the permittee has a form signed by that employee on file stating that they understand the tobacco laws dealing with minors and the unlawful purchase of tobacco, but if no training program is in place the permittee will be fined \$200. For a third violation within two years, the permittee shall be fined \$200 and the permit may be suspended for up to seven days. If the violation is by an employee, at the same location, who was involved in any previous citation for violation, the permittee shall be fined \$400. Effective training and employment practices by the permittee, as determined by the Department of Health and Welfare shall be a mitigating factor in determining permit suspension. For a fourth and subsequent violations within a two year period, the permittee shall be fined \$400 and the permit shall be revoked until such time that the permittee demonstrates an effective training plan, but in no case shall the revocation be for less than 30 days. It is an affirmative defense to prosecution that the person furnishing the tobacco product was presented with and relied on a photographic identification identifying the purchaser as being 18 years of age or older.

IDAHO CODE §§ 39-5705 (1998) & 39-5708 (2001).

Sign Posting Requirements

Retailers may display a sign within a place of business where tobacco products are sold or distributed. The sign must state: "STATE LAW PROHIBITS THE SALE OF TOBACCO PRODUCTS TO PERSONS UNDER THE AGE OF 18 YEARS OLD. PROOF OF AGE REQUIRED. ANYONE WHO SELLS OR DISTRIBUTES TOBACCO TO A MINOR IS SUBJECT TO STRICT FINES AND PENALTIES. MINORS ARE SUBJECT TO FINES AND PENALTIES."

IDAHO CODE § 39-5704 (1998).

Photo Identification Requirements to Buy Tobacco Products

No state law/regulation.

Purchase/Possession of Tobacco Products by Minors

It is illegal for a minor to purchase, receive, possess, sell, distribute, use or consume tobacco products. It is unlawful for a minor to provide false identification, or make any false statement regarding their age in an attempt to obtain tobacco products. This does not bar minors from participating in compliance checks. A minor may possess but not sell or distribute tobacco products in the course of employment, for duties such as stocking shelves or carrying purchases to customers' vehicles. A violation is a misdemeanor punishable by imprisonment not exceeding six months and/or a fine not exceeding \$300. In addition, the court may require the minor and the minor's parents or legal guardian to attend tobacco awareness programs or perform community service in programs related to tobacco awareness.

IDAHO CODE § 39-5703 (1998).

Placement of Tobacco Products

It is unlawful to sell or distribute tobacco products from self-service displays. Customers are not allowed access to tobacco products except through the assistance of the seller. Stores with tobacco products compromising at least 75 percent of total merchandise are exempt from requiring vendor assisted sales, if minors are not allowed in the store and such prohibition is posted clearly on all entrance doors. Tobacco product permittees are subject to the same penalties listed under the "Penalties for Sales to Minors" section upon violation except a permittee shall be fined \$200 for a second violation and notified in writing of penalties for further violations.

IDAHO CODE §§ 39-5706 (1998) & 39-5708 (2001).

Internet Sales of Tobacco Products

No permittee shall mail or ship tobacco products in connection with a delivery sale order unless, before mailing or shipping such tobacco products, the permittee accepting the delivery sale order first obtains from the prospective customer a certification which includes proof of age that the purchaser is at least 18 years old, the credit or debit card used for payment has been issued in the purchaser's name, and the address to which the cigarettes are being

shipped match the credit card company's address for the cardholder. Prior to making delivery sales or shipping tobacco products in connection with any such sales, every business shall obtain a permit from the Department of Health and Welfare. Violation by a permittee or non-permittee is subject to the same penalties as other youth access laws.

IDAHO CODE §§ 39-5714 to 39-5718 (2003).

Note: Some parts of the above law may be affected by the U.S. Supreme Court decision in Rowe v. New Hampshire Motor Transport Association, decided February 20, 2008.

State Preemption of Local Youth Access Laws

Licensing Requirements for Tobacco Products

Overall Summary of Licensing Requirements

Wholesalers must obtain a permit from the state Tax Commission to sell cigarettes. The permit is non-assignable and will remain in force indefinitely. Only the Indiana Alcohol and Tobacco Commission, an Indiana law enforcement agency, the office of the sheriff of a county, or an organized police department of a municipal corporation may conduct the random unannounced inspections. These entities may use retired or off-duty law enforcement officers to conduct the inspections. Minors may be used in an enforcement action as long as they are overseen by the division of government conducting the inspection, are not recruited at the scene of a possible violation and have written permission from their parents or legal guardian.

IND. CODE §§ 7.1-6-2-2 (2001) & 7.1-6-2-4 (1997).

Penalties for Sales to Minors

A retail establishment that sells or distributes tobacco to a minor commits a Class C infraction. For a sale to take place the buyer must pay the seller for the tobacco products. Violation is subject to civil penalties ranging from up to \$200 if an establishment has received no citations/summons in the previous 180 days to up to \$1,000 if an establishment has been issued three or more citations/summonses in the previous 180 days. A person who violates this law at least six times in any 180-day period commits habitual illegal sale of tobacco, a Class B infraction, and the tobacco sales certificate may be suspended by the Indiana Alcohol and Tobacco Commission. The commission may mitigate civil penalties against a certificate holder if they have a training program for their employees that cover specific topics. It is not a defense that the person to whom the tobacco was sold or distributed did not smoke, chew, or otherwise consume the tobacco. It is a defense if the buyer produced a driver's license or photo ID that showed the buyer was of legal age to make the purchase; and the appearance of the purchaser or recipient was such that an ordinary prudent person would believe that the purchaser or recipient was not less than the legal age. It is also a defense if the accused retail establishment sold or delivered the tobacco to a person who acted in the ordinary course of employment or a business concerning tobacco: agriculture, processing, transporting, wholesaling, or retailing. Unless a person buys or receives tobacco under the direction of a law enforcement officer as part of an enforcement action, a person who sells or distributes tobacco is not liable for a violation of this section unless the person less than 18 years of age who bought or received the tobacco is also issued a citation or summons.

IND. CODE §§ 35-46-1-10.2 (2008) & 7.1-3-18.5-8 (2008).

A person who knowingly sells or distributes tobacco to a minor or purchases tobacco for delivery to another person who is a minor commits a Class C infraction punishable by a fine of up to \$500. For a sale to take place the buyer must pay the seller for the tobacco products. It is not a defense that the person to whom the tobacco was sold or distributed did not smoke, chew, or otherwise consume the tobacco. The same affirmative defenses available to retailers are also available to persons who sell tobacco products to minors (see above). Unless a person buys or receives tobacco under the direction of a law enforcement officer as part of an enforcement action, a person who sells or distributes tobacco is not liable for a violation of this section unless the person less than 18 years of age who bought or received the tobacco is also issued a citation or summons.

IND. CODE §§ 35-46-1-10 (2003) & 7.1-3-18.5-8 (2008).

Sign Posting Requirements

A location selling tobacco at retail shall post and maintain in a conspicuous place signs stating: 1) "The sale of tobacco to persons under 18 years of age is forbidden by Indiana law"; 2) "Smoking by Pregnant Women May Result in Fetal Injury, Premature Birth, and Low Birth Weight"; and 3) that displays a toll free number for assistance to callers in quitting smoking. Violation is a Class C infraction punishable by a fine of up to \$500 for the owner or person who has control over the establishment.

IND. CODE § 35-46-1-11 (2008).

Photo Identification Requirements to Buy Tobacco Products

No state law/regulation.

Purchase/Possession of Tobacco Products by Minors

A minor who purchases, accepts tobacco for personal use or possesses tobacco commits a Class C infraction for which a fine of up to \$500 may be adjudged. It is a defense to prosecution if the accused person acted in the ordinary course of employment in a business concerning tobacco agriculture, tobacco processing, tobacco transporting, tobacco wholesaling, or tobacco retailing.

IND. CODE § 35-46-1-10.5 (1997).

Placement of Tobacco Products

The owner of a retail establishment that sells or distributes cigarettes through a self-service display, other than a coin operated machine, commits a Class C infraction. As used in this section, "self-service display" means a display that contains cigarettes in an area where a customer is permitted and has access to cigarettes without assistance from a sales person. This does not apply to a self-service display in a retail establishment that has a primary purpose to sell cigarettes and prohibits entry by persons less than 18 years of age.

IND. CODE § 35-46-1-11.8 (2007).

Internet Sales of Tobacco Products

A merchant may not mail or ship cigarettes as part of a delivery sale unless, before mailing or shipping the cigarettes, the merchant: obtains from the prospective customer a written statement signed by the prospective customer stating the customer's address and date of birth, makes a good faith effort to verify the information by using a federal or commercially available data base and receives payment for the delivery sale by a credit or debit card issued in the name of the prospective purchaser. Merchants that are not cigarette manufacturers are prohibited from making delivery sales to Indiana residents or retailers that are not distributors except under specified circumstances. Violation is subject to a civil penalty not to exceed \$5,000. A merchant who mails or ships cigarettes as part of a delivery sale shall use a mailing or shipping service that requires the customer or a person at least 18 years of age designated by the customer to sign to accept delivery of the cigarettes; and to present a valid driver's license or identification card unless the person appears to be over 27 years of age. Violation by a delivery service is up to a \$1,000 fine. Violations by merchants range from \$1,000 to \$2,000 for a first violation to \$10,000 for a fifth violation in five years. Signing another person's name to a certification is a \$1,000 fine.

IND. CODE §§ 24-3-5 et seq. (2005).

Note: Some parts of this law may be affected by the U.S. Supreme Court decision in Rowe v. New Hampshire Motor Transport Association, decided February 20, 2008.

Other Youth Access Laws and Provisions

A retail establishment whose primary purpose is the sale of tobacco products may not allow an individual who is less than 18 years of age to enter the retail establishment. The retail establishment must conspicuously post on all entrances signs that state: 1) "It is unlawful for a person less than 18 years old to enter this store"; and 2) displays a toll free number for assistance to callers in quitting smoking. Violation is a Class C infraction subject to the same penalties as a retail establishment that sells tobacco products to minors. The Indiana Alcohol and Tobacco Commission may mitigate civil penalties against a certificate holder if they have a training program for their employees that cover specific topics related to tobacco sales.

IND. CODE §§ 35-46-1-11.7 (2008) & 7.1-3-18.5-8 (2008).

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

All of Iowa's annual Master Settlement Agreement payments go into a Tobacco Settlement Trust Fund maintained by the state-created Tobacco Settlement Authority. Most of Iowa's annual payments have been securitized, and therefore most of the money is used to pay off bonds. Dollars from any part of the annual settlement payment not sold to the Tobacco Settlement Authority are put in a specific account and then transferred to the state general fund.

IOWA CODE § 12E.12 (2008).

Use of Tobacco Settlement Dollars— Detailed Information

A Tobacco Settlement Trust Fund was established, separate and apart from all other public moneys of the state, under control of the Tobacco Settlement Authority. The fund shall consist of Master Settlement Agreement moneys paid to the authority and not pledged to the payment of bonds or otherwise obligated. The fund consists of three accounts: 1) the Tax-Exempt Bonds Proceeds Restricted Capital Funds Account where most of the net proceeds from tax exempt bonds issued due to the original securitization of MSA payments were deposited; 2) the FY 2009 Tax-Exempt Bond Proceeds Restricted Capital Funds Account where the net proceeds from tax-exempt bonds issued after July 1, 2008 as a result of the securitization of any remaining tobacco settlement payments were deposited; and 3) the Endowment for Iowa's Health Account where the net proceeds of any taxable or tax-exempt bonds issued to provide funds for the purposes specified in section 12E.3A Iowa Code, any portion of the state's MSA payments not sold to the Tobacco Settlement Authority and any additional money appropriated by the state were deposited. For FY2010 and each fiscal year thereafter, the moneys deposited in the Endowment for Iowa's Health Account are transferred to the state general fund, and shall be used as specified in section 12E.3A Iowa Code, including for the tobacco use prevention and control initiative.

IOWA CODE § 12E.12 (2008).

Securitization

The Tobacco Settlement Authority was created as a public instrumentality and agency of the state to sell, pledge, or assign, as security or consideration, all or a portion of the state's share of the Master Settlement Agreement. The authority shall issue tax-exempt bonds as necessary in amounts determined by the authority for deposit in the Tax-Exempt Bond Proceeds Restricted Capital Funds Account of the Tobacco Settlement Trust Fund, to be used for capital projects, certain debt service on outstanding obligations which funded capital projects, and attorney fees related to the Master Settlement Agreement. The authority may also issue taxable bonds or tax-exempt bonds to provide additional funding for the Healthy Iowans Tobacco Trust. In addition, the authority may issue tax-exempt bonds if the securitization of any remaining tobacco settlement payments will result in the deposit of not less than \$183 million for taxexempt bonds issued after July 1, 2008.

Overall Summary of Smoking Restrictions

No broad restrictions on smoking in public places and workplaces. Smoking is restricted or prohibited in many state government workplaces and in schools.

KY REV. STAT. ANN. §§ 61.165 (2006), 61.167 (2004), 438.050 (1988) & EXEC. ORDER 2006-0807(2006).

Exceptions to the Law

Smoking is allowed in most public places and workplaces, so places where smoking is restricted or prohibited are the exception.

Stronger Local Laws on Smoking

Stronger local laws/ordinances further restricting smoking are specifically allowed, see court decision below.

On April 22, 2004 the Kentucky Supreme Court ruled 6-1 that Lexington, KY's smokefree air ordinance was not preempted by existing state law, and did not violate the private property rights of business owners. This allows the smokefree air ordinance Lexington passed in 2003 to go into effect, and provides legal justification for other Kentucky communities seeking to enact local smokefree air ordinances.

KY REV. STAT. ANN. § 61.165 (2006).

Except as otherwise specified for the Capitol and Capitol Annex above, a policy for smoking in governmental office buildings or workplaces may be adopted by county, municipal, special district, urban-county, charter county or consolidated local governments. Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Sixty percent of Louisiana's future Master Settlement Agreement payments have been sold to the Tobacco Settlement Financing Corporation for a lump sum payment up front. The remaining 40 percent of the annual payment is distributed to the Millennium Trust and Louisiana Fund, and directed to several additional funds from there. Five hundred thousand dollars is dedicated annually to a tobacco prevention/cessation program at the Louisiana Department of Health & Hospitals.

LA CONST., Art. VII, Sect. 10.8 to 10.10 (2000).

Use of Tobacco Settlement Dollars— Detailed Information

Louisiana established the Millennium Trust, a permanent trust fund in the state treasury. After allocation of money to the Bond Security and Redemption Fund, a portion of the proceeds from the Master Settlement Agreement (45 percent in FY2001, 60 percent in FY2002 and 75 percent in FY2003 and each fiscal year thereafter) and all dividend and interest income and all realized capital gains on investment of the monies in the Millennium Trust shall be allocated to the Millennium Trust. All money is credited, onethird each, to the Education Excellence Fund, the Health Excellence Fund and the TOPS Fund, funds created within the Millennium Trust. Only the investment earnings from the various funds may be spent.

LA CONST., Art. VII, Sect. 10.8 (2000).

The state also established the Louisiana Fund which receives the rest of the MSA proceeds and all investment income from the Louisiana Fund. Appropriations from the Fund are limited to the following specified purposes: 1) initiatives for children through enhancements in education and health care; 2) provision of direct health care for tobacco-related illnesses; 3) initiatives to benefit the citizens of the state with respect to health care; 4) initiatives to diminish tobacco-related injury and death to Louisiana's citizens.

LA CONST., Art. VII, Sect. 10.9 (2000).

The Louisiana legislature may provide, by a 2/3 vote in both houses of the legislature, for the deposit of all or portion of the MSA proceeds into a

special trust fund in the state treasury called the Millennium Leverage Fund. A two-thirds vote of the legislature provides for the issuance of revenue bonds secured by monies in the Leverage Fund in amounts authorized by the legislature. Bond proceeds must be appropriated 25 percent each to the Health Excellence, Education Excellence, TOPS, and Louisiana Funds to be used for the specified purposes of each fund. Termination of the deposit of settlement revenues into the Leverage Fund is allowed pursuant to a two-thirds vote of the legislature.

LA CONST., Art. VII, Sect. 10.10 (2000).

Securitization

The Tobacco Settlement Financing Corporation was created as a separate entity from the state of Louisiana. The corporation has the power to purchase the tobacco assets and receive, or authorize the indenture trustee to receive, the tobacco settlement payments and issue bonds.

LA REV. STAT. ANN. §§ 39:99.1 to 39:99.20 (2003).

The State Bond Commission is authorized to sell and convey up to 60 percent of the tobacco settlement funds. After June 30, 2003, the State Bond Commission shall declare its intent by granting preliminary approval and authorization to sell or convey up to 100 percent of the state allocation to the corporation. Said declaration shall first be approved by the Joint Legislative Committee on the Budget and, if approved by the legislative committee, shall then be approved by a majority of the legislature if the legislature is in session or by mail ballot if the legislature is out of session. Upon approval of the legislature, the State Bond Commission shall commence with the sale. In the event an authorized sale is made during any fiscal year commencing on or after July 1, 2003, the state treasurer, in consultation with the Commissioner of Administration, shall provide for the deposit into the Louisiana Fund an amount of the net proceeds of any sale or sales that, together with other deposits, will ensure that a sufficient amount is deposited into the Louisiana Fund to fund the appropriations from that fund for that fiscal year. The remainder of such proceeds after deposit into the Louisiana Fund and any residuals received in such state fiscal year shall be deposited into the Millennium Trust.

LA REV. STAT. ANN. § 39:99.12 (2003).

Then, before the first sale to a consumer the person must obtain a copy of a government issued ID, and a written statement from the customer documenting that they are at least 18 years of age, and that the customer understands that providing false information or purchasing tobacco products for a minor is illegal. It is an affirmative defense that the defendant had, and continues to have in force, a written policy to prevent the sale of tobacco products to minors and enforces said policy. This does not apply to the handling or transportation of a tobacco product by a minor under the terms of that minor's employment. This also does not interfere with the right of a parent or legal guardian in the rearing and management of their minor children within the bounds of their private premises.

Violation is a misdemeanor, punishable by a fine of not more than \$50 for each offense. Pursuant to a probation order, the court may also require an individual to participate in a health promotion and risk reduction assessment program, if available. In addition, an individual is subject to one of the following for a first violation: perform not more than 16 hours of community service in a hospice, nursing home or long-term care facility; or participate in a health promotion and risk reduction program. For a second violation, in addition to participation in a health promotion and risk reduction program, the court may order the individual to perform not more than 32 hours of community service in a hospice, nursing home, or long-term care facility. For a third or subsequent violation, in addition to participation in a health promotion and risk reduction program, the court may order the individual to perform not more than 48 hours of community service in a hospice, nursing home, or long-term care facility. This does not apply to minors used in efforts to gauge compliance with the law. This also does not apply to the handling or transportation of a tobacco product by a minor under the terms of that minor's employment or interfere with the right of a parent or legal guardian in the rearing and management of their minor children within the bounds of their private premises.

Violation is a misdemeanor punishable by a fine of \$1,000 or five times the retail value of the tobacco products involved, whichever is greater and/or imprisonment for not more than one year.

MICH. COMP. LAWS §§ 205.428 & 205.431 (2004).

Other limitations are made on tobacco products distributed through United States mail service, express mail service, parcel post service, or common carrier. Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Tobacco settlement dollars received by Minnesota, except the portion that went to ClearWay Minnesota, are deposited in the state general fund and distributed through the annual appropriations process.

Note: Minnesota was one of four states that settled separately in its lawsuit with the major tobacco companies, prior to the Master Settlement Agreement in 1998.

Use of Tobacco Settlement Dollars— Detailed Information

In 1998, Lawrence D. Cohen, chief judge of the Ramsey County District Court, approved the state

of Minnesota's plan to establish the Minnesota Partnership for Action Against Tobacco (MPAAT), a nonprofit foundation which will receive \$202 million dollars (about 3 percent of Minnesota's settlement money) over ten years to fund projects that seek to reduce tobacco use in the state. MPAAT, now called ClearWay Minnesota, serves Minnesota through its grant-making program, QUITPLAN individual stop-smoking services and community outreach, which includes an advertising campaign. The organization files an annual report with the Ramsey County District Court and the state legislature each year.

State of Minnesota and Blue Cross/Blue Shield of Minnesota v. Philip Morris et al. (1998).

Blue Cross & Blue Shield of Minnesota, a coplaintiff in Minnesota's settlement with the tobacco companies, is scheduled to receive \$469 million total from the settlement subject to certain adjustments. Due to these adjustments the actual amount received will be reduced. The organization will be spending \$252 million of this money over ten years to help reduce tobacco use, heart disease, and cancer in Minnesota.

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Tobacco settlement dollars received by Mississippi are deposited in the Tobacco Control Program Fund (\$20 million annually), the Health Care Trust Fund and the Health Care Expendable Fund. Some of the money in the Tobacco Control Program Fund is allocated to Mississippi's tobacco control program.

MISS. CODE ANN. §§ 41-113-1 to 41-113-11 (2007), 43-13-405 (2009) & 43-13-407 (2010).

Note: Mississippi was one of four states that settled separately with the major tobacco companies prior to the Master Settlement Agreement in 1998.

Use of Tobacco Settlement Dollars— Detailed Information

The Tobacco Control Program Fund was established in the state treasury. From the annual tobacco settlement payment, \$20 million is dedicated annually to the fund. The money is to be used to fund a comprehensive tobacco control program and for other specified purposes.

MISS. CODE ANN. §§ 41-113-1 to 41-113-11 (2007).

The Health Care Trust Fund was established in the state treasury, and received \$280 million in settlement money at the end of FY1999, and is supposed to receive all subsequent annual settlement payments. All income from the trust fund is supposed to go to the trust fund, and funds do not lapse to the general fund. Money is transferred to the Health Care Expendable Fund each fiscal year from the Health Care Trust Fund. The trust fund principal is supposed to remain forever inviolate except for specified circumstances, but has been used by the legislature for general budget purposes on several occasions, including a \$240 million transfer in 2005 and a \$112 million transfer in FY2011 to the Health Care Expendable Fund. Transfer of funds in the trust fund to the state Medicaid program under certain circumstances is also allowed under legislation passed in 2009.

MISS. CODE ANN. § 43-13-405 (2009).

The Health Care Expendable Fund was also established in the state treasury. All income from investment of the money in the fund shall be credited to the fund. The funds in the Health Care Expendable Fund are available for expenditure by specific appropriation each fiscal year beginning in FY2000 for health care purposes. Money is transferred to this fund each fiscal year from the Health Care Trust Fund. In 2005, \$240 million was transferred and in FY2011, \$112 million was transferred to this fund from the Health Care Trust Fund in addition to regular transfers each year. The entire settlement installment payment received in calendar year 2010 and the entire settlement installment payment minus \$10 million in 2011 will also be deposited in this fund.

However, an employer may offer, impose, or have in effect a health, disability, or life insurance policy that makes distinctions between employees for the type or price of coverage based on the employees' use of a product with stipulations. Use of Tobacco Settlement Dollars—Summary

Referendum C-35 passed by voters in 2000 and Statutory Initiative 146, approved by voters in 2002, govern how annual Master Settlement Agreement payments are supposed to be allocated although the legislature can override these allocations under certain circumstances. Thirty-two percent of the payments are dedicated to tobacco prevention and cessation programs.

MONT. CODE ANN. §§ 17-6-601 to 17-6-603 (2007), 17-6-606 (2007) & MT CONSTITUTION Art. XII § 4 (2000).

Use of Tobacco Settlement Dollars— Detailed Information

Statutory Initiative 146, approved by voters in November 2002, re-designated how Master Settlement Agreement payments would be spent: 32 percent is deposited in a state special revenue account and may only be used to fund state tobacco control programs; 17 percent is deposited in a state special revenue fund and is used to help fund the state Children's Health Insurance Program and programs of the Montana Comprehensive Health Association; 40 percent is dedicated to the Tobacco Trust Fund per the constitutional referendum in 2000 (see below); and the remaining 11 percent is deposited in the state general fund. These allocations will apply to MSA payments received after June 30, 2003. The legislature retained the authority to override these allocations.

MONT. CODE ANN. § 17-6-602 & 17-6-606 (2007).

Referendum C-35 was passed by the voters of Montana in November 2000 to amend Article XII of the state constitution by adding a new section Four. It directs the legislature to dedicate not less than 40 percent of settlement proceeds received on or after January 1, 2001, to a trust fund, 90 percent of the interest and income of which may be appropriated. Ten percent of the interest and income derived from the trust fund on or after January 1, 2001, shall be deposited in the trust fund. The principal of the trust fund and 10 percent of the interest and income deposited in the trust fund shall remain forever inviolate unless appropriated by a vote of two-thirds of the members of each house of the legislature. Appropriations of the interest, income, or principal from the trust fund shall be used only for tobacco disease prevention programs and state programs providing benefits, services, or coverage that are related to the health care needs of the people of Montana and may not be used for other purposes. Appropriations of the interest, income, or principal from the trust fund shall not be used to replace state or federal money used to fund tobacco disease prevention programs and state programs that existed on December 31,1999, providing benefits, services, or coverage of the health care needs of the people of Montana.

Stronger Local Laws on Smoking

Stronger local laws/ordinances further restricting smoking are specifically not allowed due to a court decision, see below.

The New Hampshire Supreme Court ruled unanimously that the New Hampshire state Clean Indoor Air Act (N.H. REV. STAT. ANN. §§ 155:64 to 155:78) constitutes a comprehensive and detailed statutory scheme, and because there was no provision permitting additional municipal regulation, the state law preempts local ordinances regarding indoor smoking more stringent than state law.

J.T.R. Colebrook, Inc. v. Town of Colebrook (2003).

Government Buildings

Smoking is restricted to effectively segregated areas in all buildings, offices, and facilities owned, leased, or rented by state, county, or municipal governments, or agencies supported by funds from the collection of federal, state, county, or municipal taxes. This definition includes legislative offices and other areas used by legislative bodies, courtrooms, jury rooms, recreation facilities, penal and detention institutions, public housing, subsidized housing, polling places and public meeting and hearing rooms. Other health care facilities and resident rooms in facilities such as nursing homes, sheltered care facilities, and residential treatment and rehabilitation facilities are specifically exempted, but shall follow any procedures established by rule. N.H. REV. STAT. ANN. §§ 155:64 to 155:78 (2009).

Smoking is prohibited in restaurants. Restaurant is defined as any room or enclosed place used and kept open on a regular basis and in a bona fide manner for the serving of meals to guests for compensation. The definition includes any such room or place in resorts, hotels, and motels.

N.H. REV. STAT. ANN. §§ 155:65 & 155:66 (2007).

The smoking of cigars only is allowed in cigar bars. Cigar bar is defined as a business that: 1) Generates 60 percent or more of its quarterly gross revenue from the sale of cigar-related products, which is

limited to cigars, humidors, cigar cutters, cigar cases, lighters, and ashtrays; 2) has a humidor on the premises; 3) does not allow minors to enter the premises; and 4) does not allow cigarette smoking or service of food on the premises. The business must also have a tobacco retailer's license.

Fire Safety Standards for Cigarettes

Law Setting Fire Safety Standard for Cigarettes

By rule of the Office of Fire Prevention and Control, after June 28, 2004, cigarettes sold in New York state are required to self-extinguish if left unattended to help prevent cigarette caused fires. Cigarettes are required to be tested in accordance with the American Society of Testing and Materials standard E2187-02b "Standard Test Method for Measuring the Ignition Strength of Cigarettes," subject to the modifications stated in Appendix A. When tested no more than 25 percent of the cigarettes shall exhibit full length burns. A certification is required from each manufacturer stating that each cigarette has been tested and has met the performance standard.

NYCRR Title 19, Part 429 (2004).

By 2002, the Office of Fire Prevention and Safety shall promulgate fire safety standards for cigarettes sold or offered for sale in this state. The standards shall insure that such cigarettes will stop burning within a time period specified by the standards if the cigarettes are not smoked during that period or will meet performance standards which limit the risk that such cigarettes will ignite upholstered furniture, mattresses or household furnishings. On or after the date such standards are promulgated by the Office of Fire Prevention and Control, it will be unlawful to sell in the state cigarettes that do not meet the required standards.

Smoking Protection Laws

It is an unlawful employment practice for an employer to fail or refuse to hire a prospective employee, or discharge or otherwise discriminate against any employee with respect to compensation, terms, conditions, or privileges of employment because the prospective employee or the employee engages in or has engaged in the lawful use of lawful products if the activity occurs off the premises of the employer during non-working hours and does not adversely affect the employee's job performance or the person's ability to properly fulfill the responsibilities of the position in question or the safety of the other employees. It is not unlawful if the restriction relates to a bona fide occupational requirement and is reasonably related to the employment activities: if the restriction relates to the fundamental objectives of the organization; or if the employee fails to comply with the requirements of the employer's substance abuse prevention program. This section shall not prohibit an employer from offering, imposing, or having in effect a health, disability, or life insurance policy distinguishing between employees for the type or price of coverage based on the use or nonuse of lawful products if differential rates assessed employees reflect actuarially justified differences in the provision of employee benefits; the employer provides written notice to employees setting forth the differential rates imposed by insurance carriers; and the employer contributes an equal amount to the insurance carrier on behalf of each employee of the employer. The employee against whom the violation occurs may bring a civil action within one year from the date of the alleged violation against the employer to obtain lost wages or benefits, an order of reinstatement without loss or position, seniority, or benefits or an order directing the employer to offer employment to the prospective employee.

Use of Tobacco Settlement Dollars— Detailed Information

On November 4, 2008, North Dakota voters approved, 54 to 46 percent, a ballot initiative (Measure 3) dedicating additional money from the MSA the state began receiving in 2008 to a comprehensive tobacco control program to be funded at or above the \$9.3 million level recommended by CDC through a Tobacco Prevention and Control Advisory Committee.

North Dakota Ballot Measure 3, approved by voters 11/4/08 and effective 12/08.

There is created in the state treasury a tobacco settlement trust fund where all MSA dollars, except MSA strategic contribution payments received from 2008 to 2017, are deposited. Interest earned from money in the trust fund is deposited in the trust fund. The principal and interest from the fund must be allocated as follows: 1) 10 percent of annual transfers to a community health trust fund administered by the state health department, a minimum of 80 percent of which must be used for tobacco prevention and control programs; 2) 45 percent of annual transfers to the common schools trust fund to become part of the principal of that fund; and 3) 45 percent of annual transfers to the water development trust fund to address the longterm water development needs of the state.

N.D. CENT. CODE § 54-27-25(1) (2008).

There is created in the state treasury the Tobacco Prevention and Control Trust Fund where MSA strategic contribution payments received from 2008 to 2017 are deposited. Interest earned from money in the trust fund is deposited in the trust fund. Moneys in the fund are administered by the executive committee of the Tobacco Prevention and Control Advisory Committee for the purpose of creating and implementing a comprehensive plan to reduce tobacco use in North Dakota based on CDC Best Practices for Comprehensive Tobacco Control Programs. The comprehensive plan can not duplicate the work of the community health grant program established under North Dakota Century Code section 23.38 et. seq. If in any biennium, the tobacco prevention and control trust fund does not have adequate dollars to fund a comprehensive plan, the treasurer shall transfer money from the water development trust fund to the tobacco prevention and control trust fund in an amount equal to the amount determined necessary by the executive committee.

N.D. CENT. CODE § 54-27-25(2) (2008).

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

The rights to virtually all of Ohio's future Master Settlement Agreement (MSA) payments have been sold to the Buckeye Tobacco Settlement Financing Authority to receive a lump sum payment up front, see Securitization section below.

Use of Tobacco Settlement Dollars— Detailed Information

In 2007, Ohio securitized all of its future annual Master Settlement Agreement (MSA) payments, and repealed the statute requiring deposit of the payments in the Tobacco Master Settlement Agreement Fund. Many of the various trust funds created to receive portions of the MSA payment still exist, but will receive no more money from future MSA payments.

OHIO REV. CODE ANN. §§ 183.01 to 183.35 (2007).

In May 2008, legislation was passed that abolished the former Tobacco Use Prevention and Control Foundation and Tobacco Use Prevention and Control Endowment Fund and transferred the \$270 million left in its endowment back to state control. A lawsuit was then filed by the American Legacy Foundation claiming a contract was signed giving a majority of the money to them before the legislation above took effect. That case ended with an Ohio Supreme Court decision in favor of the state in December 2010. Money in the Tobacco Use Prevention and Control Endowment Fund was from earlier MSA payments.

H.B. 544 enacted and effective 5/6/08.

The Tobacco Use Prevention Fund was created in the state treasury and shall consist of money liquidated from the former tobacco use prevention and control endowment fund and any gifts, grants or donations received. Investment earnings of the fund shall be credited to the fund. Moneys in the fund shall be used to pay outstanding expenses of the former Tobacco Use Prevention and Control Foundation (TUPCF) at the discretion of the di-

ОН

— Н О rector of the state Department of Health, and for initiatives to reduce tobacco use in Ohio pursuant to a state plan as specified.

OHIO REV. CODE ANN. §§ 3701.84 & 3701.841 (2008).

Securitization

The sale and assignment of all of the state's future payments expected to be received under the Master Settlement Agreement to the Buckeye Tobacco Settlement Financing Authority is authorized. The authority can then issue and sell bonds and other obligations although the aggregate principal amount of these bonds can not exceed \$6 billion dollars. At least 75 percent of the net proceeds of the sale of obligations by the authority shall be deposited into the school building program assistance fund.

OHIO REV. CODE ANN. §§ 183.51 & 183.52 (2007).

A manufacturer, wholesale dealer, agent or any person other than a retail dealer who knowingly sells or offers to sell cigarettes in violation of the above standard is liable for a civil penalty not to exceed \$100 for each pack of such cigarettes sold or offered for sale; provided that in no case shall

the penalty against any such person or entity exceed \$100,000 during any 30-day period. A retail dealer who knowingly sells or offers to sell cigarettes in violation is subject to the same civil penalty as others above, but the penalty shall not exceed \$25,000 during any 30-day period. A manufacturer that is a corporation, partnership, sole proprietorship, limited partnership, or association who knowingly violates the certification requirements is subject to a civil penalty of at least \$75,000 not to exceed \$250,000 for each such violation, in addition to any other penalty.

Commission, a municipality or town, or a county to assist in compliance checks and enforcement if written parental consent has been provided and the testing is conducted under the direct supervision of the ABLE Commission or another authorized law enforcement agency. This shall not apply to the use of persons under 18 to test compliance if the test is being conducted by or on behalf of a retailer of cigarettes at any location where the retailer is authorized to sell cigarettes. Any other use of minors to test compliance shall be unlawful and punishable by a fine of \$100. The ABLE commission shall notify storeowners when one of their employees has been determined to be in violation by the ABLE commission or convicted of a violation by a municipality.

OKLA. STAT. ANN. tit. 37, § 600.11 (2004).

Penalties for Sales to Minors

It is unlawful for any person to sell, give or furnish in any manner any tobacco product to another person who is under 18 years of age. This does not apply to an employee under 18 handling tobacco products as part of their employment. Persons who violate this law shall be fined not more than \$100 for the first offense, not more than \$200 for the second offense within a two-year period, not more than \$300 for the third offense within a two-year period and the license to sell tobacco products may be suspended for no more than 30 days, not more than \$300 for a fourth and subsequent offense in a twoyear period and the license to sell tobacco products may be suspended for no more than 60 days. Each violation by any employee shall be a violation against the owner for purposes of a license suspension. Proof that the defendant demanded, was shown, and reasonably relied upon proof of age, shall be a defense to any action brought pursuant to this section. This can be proved if the individual who purchased or received the tobacco product presented a driver's license or other form of government-issued photo identification purporting to establish that the individual was 18 years of age or older and the person cited for the violation confirmed the validity of the identification by performing a transaction scan by means of a transaction scan device. This does not relieve any person cited for a violation from exercising reasonable diligence to determine whether the physical description and picture appearing on the driver's license was that of the person who presented it. County sheriffs may enforce this law.

OKLA. STAT. ANN. tit. 37, § 600.3 (2004).

It is unlawful to sell, give or furnish in any manner to another person who is under 18 any material or device used in the smoking, chewing, or other method of consumption of tobacco, including cigarette papers, pipes, holders of smoking materials of all types, and other items designed primarily for the smoking or ingestion of tobacco products. "Proof of age" means a driver's license, license for identification only, or other generally accepted means of identification that describes the individual as 18 years of age or older and contains a photograph or other likeness of the individual and appears on its face to be valid. If an individual engaged in the sale or distribution of tobacco products has demanded proof of age from a prospective

purchaser or recipient who is not less than 18 years of age, the failure to subsequently require proof of age shall not constitute a violation. Penalties for violation are the same as those for selling or distributing tobacco products to minors.

OKLA. STAT. ANN. tit. 37, § 600.3 (2004).

Purchase/Possession of Tobacco Products by Minors

It is unlawful for a person who is under 18 years of age to purchase, receive, or have in their possession a tobacco product; or to present or offer to any person any purported proof of age which is false or fraudulent, for the purpose of purchasing or receiving any tobacco product. Any minor in possession of tobacco products who is asked where and from whom such products were obtained by any police officer, constable, juvenile court officer, truant officer, or teacher, and who refuses to furnish such information shall be guilty of a misdemeanor. The person must make a good faith effort to verify the information against a commercially available database or obtain a photocopy of the government issued ID of the purchaser. The person must also use a delivery service that requires the purchaser placing the delivery sale, or another adult of legal minimum purchase age residing at the purchaser's address, to sign to accept delivery of the shipping container and proof, in the form of a valid, government-issued identification bearing a photograph of the individual unless the individual appears to be over 27 years of age. A first violation of the above provisions is a fine of up to \$1,000. A second and subsequent violation is a penalty of at least \$1,000 or five times the retail value of the cigarettes involved, whichever is greater. Knowingly violating the above provisions is a fine of \$10,000, or five times the retail value of the cigarettes involved, whichever is greater and/or up to five years in prison. Failing to collect or remit taxes is a penalty of five times the retail value of the cigarettes involved in addition to any other penalty. OKLA. STAT. ANN. tit. 68, §§ 317.1 to 317.8 (2003).

Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

All payments received from the Master Settlement Agreement (MSA) are deposited in the Tobacco Settlement Fund. Money is then transferred to a number of programs and purposes based on the original law allocating MSA payments, and changes to the state fiscal code through separate annual legislation. Twelve percent of the MSA dollars are supposed to be allocated to tobacco prevention and cessation programs under the original MSA payment law, but over half of these dollars were diverted to other purposes in FY2011.

35 PA STAT. §§ 5701.301 to 5701.308 (2001) & 72 PA STAT. §§ 1715-K, 1715-M & 1716-M (2010).

Use of Tobacco Settlement Dollars— Detailed Information

A special fund known as the Tobacco Settlement Fund was established to receive all payments received from the MSA. Also, within the Tobacco Settlement Fund, the Health Endowment Account for Long-Term Hope, and Health Venture Investment Fund were established. This law divided the money received based on percentages of actual money received each year. Twelve percent went to the Department of Health for tobacco use prevention and cessation programs, 8 percent for deposit into the Health Account, 13 percent to the Department of Public Welfare for home and community-based care services, 19 percent total for health and related research efforts, 10 percent to the uncompensated care payment program, 30 percent for health investment insurance and the purchase of Medicaid benefits for workers with disabilities and 8 percent for expansion of the Pacenet program.

35 PA STAT. §§ 5701.301 to 5701.308 (2001).

Senate bill 1042 passed in 2010 amends the state fiscal code for FY2011 only. It created a Community Health Reinvestment Restricted Account in the Tobacco Settlement Fund as specified. The legislation re-directed 25 percent of money dedicated to tobacco prevention and cessation programs and 33 percent of the money dedicated to health investment insurance and the purchase of Medicaid benefits for workers with disabilities to the Tobacco Settlement Fund to be used for other healthrelated purposes. The legislation also directed \$15 million in investment earnings from the Tobacco Endowment Account for Long-Term Hope and 100 percent of the tobacco settlement dollars dedicated to the account in FY2011 to the Tobacco Settlement Fund. The bill then transferred \$121 million from the endowment account to a restricted receipt account in the state general fund to be used as specified, and then all remaining money in the endowment account to the Tobacco Settlement Fund by June 1, 2011. Finally, SB 1042 specified that Master Settlement Agreement strategic contribution payments received in FY2010 shall be deposited in the Tobacco Settlement Fund, and that \$250 million shall be transferred from the Tobacco Settlement Fund to the state general fund. House bill 1614, passed in 2009, also transferred 37.5 of the remaining money dedicated to tobacco prevention and cessation programs from the Tobacco Settlement Fund to the state general fund in FY2011.

Stronger local laws/ordinances further restricting tobacco use in and on the grounds of schools and day care facilities are specifically allowed, see below; for other types of places local communities are allowed to pass stronger laws/ordinances further restricting smoking as well.

Nothing contained in this chapter shall be construed to restrict the power or authority of any Rhode Island city, town or other legal subdivision to adopt and enforce additional local laws, ordinances, or regulations that comply with at least the minimal applicable standards to establish smokefree schools.

R.I. GEN. LAWS §§ 23-20.9-1 et seq. (1993).

Nothing in this section shall be construed to prohibit a city or town from enacting or enforcing an ordinance relating to tobacco use in a facility providing day care services if the ordinance is more stringent than this section.

R.I. GEN. LAWS § 23-28.15-23 (2000).

Government Buildings

Smoking shall be prohibited in all enclosed facilities within places of employment, including all public places of employment and vehicles being used by more than one employee. This includes common work areas, auditoriums, classrooms, conference and meeting rooms, private offices, elevators, hallways, medical facilities, cafeterias, employee lounges, stairs, restrooms, vehicles, and all other enclosed facilities. An employer may provide an outdoor smoking area, but the area must be physically separated from the enclosed workplace so as to prevent the migration of smoke into the workplace. This prohibition on smoking shall be communicated to all existing employees and to all prospective employees upon their application for employment.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Private Workplaces

Smoking shall be prohibited in all enclosed facilities within places of employment without exception. This includes common work areas, auditoriums, classrooms, conference and meeting rooms, private offices, elevators, hallways, medical facilities, cafeterias, employee lounges, stairs, restrooms, vehicles, and all other enclosed facilities. The definition of "place of employment" includes vehicles being used by more than one employee. A private residence is not a "place of employment" unless it is used as a child care, adult day care or health care facility. An employer may provide an outdoor smoking area, but the area must be physically separated from the enclosed workplace so as to prevent the migration of smoke into the workplace. This prohibition on smoking shall be communicated to all existing employees and to all prospective employees upon their application for employment.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Schools

Smoking is prohibited in all primary and secondary schools, indoor athletic facilities, school administration buildings, playgrounds, school buses and outdoor areas within 25 feet of any school building. The governing body of each school in Rhode Island shall be responsible for the development of enforcement procedures to prohibit tobacco

 \perp

product usage by any person utilizing school facilities. All facilities used by a school, whether owned, leased or rented, shall be subject to the provisions of this chapter. Governing bodies of schools are liable for a civil penalty of not less than \$50 or to exceed \$500.

R.I. GEN. LAWS § 23-20.9-1 et seq. (1993).

To the extent not covered by the restrictions above, smoking is prohibited in all enclosed public places, including primary, secondary and post-secondary education facilities.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Child Care Facilities

No person shall smoke, chew, or otherwise use tobacco products in the buildings or outdoor play areas of a licensed child day care center or during the hours of operation in a family day care home or group family day care home, in any vehicle used for transporting children or in outside areas on the grounds or premises within 25 feet of buildings or outdoor play areas; provided, further, that smoking shall not occur on grounds or premises within the children's view. The administrator of a child day care center shall post in a conspicuous place in the center a notice stating that smoking is prohibited in the facility and its vehicles and on its grounds. Smoking may be permitted in family day care homes and group family day care homes during hours in which individuals receiving day care are not present; provided, however, that the day care provider shall notify the parent, custodian, or guardian of each individual receiving day care services that smoking routinely occurs in the home during hours when the home is not in operation.

R.I. GEN. LAWS § 23-28.15-23 (2000).

To the extent not covered by the restrictions above, smoking shall be prohibited in all enclosed public places, including licensed child care and adult day care facilities.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Health Care Facilities

Smoking shall be prohibited in all enclosed public places, including health care facilities and the lobbies, hallways and other common areas of nursing homes. "Health care facility" is defined as an office or institution providing care or treatment

of diseases, whether physical, mental, emotional, or other medical, physiological or psychological conditions, including, but not limited to, hospitals, rehabilitation hospitals or other clinics, including weight control clinics, nursing homes, homes for the aging or chronically ill, laboratories, and offices of surgeons, chiropractors, physical therapists, physicians, dentists, and all specialists within these professions. Private and semi-private rooms or designated areas in assisted living residences and nursing facilities are exempt.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Restaurants

Smoking shall be prohibited in all enclosed public places, including restaurants. "Restaurant" is defined as an eating establishment, including, but not limited to, coffee shops, cafeterias, and private and public school cafeterias, which gives or offers for sale food to the public, guests or employees, as well as kitchens and catering facilities in which food is prepared on the premises for serving elsewhere. The term "restaurant" shall include a bar area within the restaurant.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Rars

Smoking shall be prohibited in all enclosed public places, including bars. Smoking bars are exempt. "Smoking bar" means an establishment whose business is primarily devoted to the serving of tobacco products for consumption on the premises, in which the annual revenues generated by tobacco sales are greater than 50 percent of the total revenue for the establishment and the serving of food or alcohol is only incidental to the consumption of such tobacco products. Smoking bars are required to provide a proper ventilation system which will prevent the migration of smoke into the street.

R.I. GEN. LAWS §§ 23-20.10-1 et seq. (2005).

Other State Smoking Restrictions and Provisions

Bingo games held in nonsmoking facilities are permitted to award a higher amount of total prizes in any one night than games held in smoking facilities. Prizes may total a maximum of \$6,050 in cash and merchandise in nonsmoking facilities and \$4,250 in smoking facilities.

R.I. GEN. LAWS § 11-19-32 (1995).

Penalties/Enforcement

No-smoking signs must be clearly and conspicuously posted in every public place and place of employment where smoking is prohibited by this chapter, by the owner, operator, manager or other person in control of that place. An employer who violates the prohibition on smoking in public places or places of employment is liable for a civil penalty of \$250 for the first violation, \$500 for the second violation and \$1,000 for the third violation. Each day the violation is committed or permitted to continue shall constitute a separate offense. Any citizen who desires to register a complaint under this chapter may initiate such a complaint with the Department of Health. The Department of Health, local fire department, or their designees shall, while an establishment is undergoing otherwise mandated inspections, shall inspect for compliance with the above law.

SOUTH CAROLINA

Smoking Restrictions

Overall Summary of Smoking Restrictions

Smoking is prohibited in some specific public places, including: 1) elevators; 2) public transportation vehicles, except taxis; 3) public schools and preschools, including libraries, except for certain private offices and teacher's lounges; 4) all other indoor facilities providing children's services to the extent that smoking is prohibited in the facility by federal law and other childcare facilities, as defined; 5) almost all state and local government buildings except private enclosed offices and designated areas of employee break rooms; 6) arenas and auditoria of public theaters or public performing arts centers, except smoking areas may be designated in foyers, lobbies or other common areas.

S.C. CODE ANN. §§ 44-95-10 et seg. (1996).

Exceptions to the Law

Smoking is still allowed in many public places and workplaces, including private workplaces, restaurants and bars. Smoking is also specifically allowed as part of a legitimate theatrical performance.

S.C. CODE ANN. §§ 44-95-10 et seq. (1996).

Stronger Local Laws on Smoking

Stronger local laws/ordinances further restricting smoking are specifically allowed, see information on court decision below confirming this.

In March 2008, the South Carolina Supreme Court ruled unanimously (5-0) that existing South Carolina law does not prevent local communities from passing stronger ordinances restricting or prohibiting smoking in public places and workplaces. This allows the city of Greenville, South Carolina's law to go back into effect and provides legal justification for other stronger local smokefree ordinances in South Carolina.

Foothills Brewing Concern v. City of Greenville (2008).

Government Buildings

Smoking is prohibited in most areas of buildings leased or operated by the state or any of its political subdivisions, but is permitted in private enclosed offices and designated areas of employee break areas. Smoking policies in the state Capitol and legislative office buildings shall be determined by

the office of government having control over such buildings. "Government buildings" means buildings or portions of buildings which are leased or operated under the control of the state or any of its political subdivisions, except those buildings or portions of buildings which are leased to other organizations or corporations.

S.C. CODE ANN. §§ 44-95-10 et seq. (1996).

Private Workplaces

No restrictions.

Schools

Smoking is restricted in public schools and preschools where routine or regular kindergarten, elementary, or secondary educational classes are held, including libraries. Private offices and teacher lounges which are not adjacent to classrooms or libraries are excluded unless the offices and lounges are included specifically in a directive by the local school board. This section does not prohibit school district boards of trustees from providing for a smokefree campus.

S.C. CODE ANN. §§ 44-95-10 et seq. (1996).

Smoking on school buses is prohibited while the bus is in operation.

Compliance/Enforcement

The Department of Agriculture shall conduct random, unannounced inspections at locations where tobacco products are sold or distributed to ensure compliance with this law. Law enforcement efforts may involve the use of individuals under the age of 18 if a parent has consented to this action.

TENN. CODE ANN. §§ 39-17-1504 & 39-17-1509 (1999).

Penalties for Sales to Minors

It is unlawful for any person to sell or distribute any tobacco product to another person who is less than 18 or to purchase a tobacco product on behalf of such person. It is unlawful for any person to persuade, entice, send or assist a person who is less than 18 years of age to purchase, acquire, receive or attempt to purchase, acquire or receive a tobacco product. This shall not be deemed to preclude law enforcement efforts involving the use of individuals less than 18 years of age. A person who violates these provisions shall receive a warning letter for the first violation, a civil penalty of not more than \$500 for a second violation, not more than \$1,000 for a third violation and not more than \$1,500 for a fourth or subsequent violation within a five-year period. When assessing a civil penalty, the Commissioner of Agriculture is authorized to assess the penalty against any person or persons determined by the commissioner to be responsible, in whole or in part, for contributing to or causing the violation to occur, including, but not limited to, the owner, manager or employee of a store at which tobacco products are sold at retail. Before selling tobacco products, all employees are required to undergo training regarding state law restricting youth access to tobacco products and sign a statement to this effect. That statement can be used by the owner or manager as an affirmative defense against the civil penalty for a second violation, and may be used as a mitigating factor for subsequent violations.

"Proof of age" means a driver's license or other generally accepted means of identification that describes the individual as

18 years of age or older, contains a photograph or other likeness of the individual, and appears on its face to be valid. Penalties for violation are the same as those for selling or distributing tobacco products to minors.

TENN. CODE ANN. §§ 39-17-1504 & 39-17-1509 (1999).

Purchase/Possession of Tobacco Products by Minors

It is unlawful for a person under 18 to possess a tobacco product, to purchase or accept receipt of a tobacco product, or to present or offer to any person any purported proof of age that is false, fraudulent, or not actually that person's own for the purpose of purchasing or receiving any tobacco product. A violation is a civil offense with a penalty of not less than \$10 and not more than \$50. The juvenile court may also impose community service work not to exceed 50 hours or successful completion of a prescribed teen court program for a second or subsequent violation within a one-year period. A minor assisting a law enforcement officer in a compliance check is not subject to these penalties. It is not unlawful for a person under 18 years of age to handle or transport tobacco or tobacco products as a part of and in the course of such person's employment, provided that the person is under the supervision of another employee who is at least 21 years of age.

A first violation of the above provisions is subject to a fine of \$1,000 or five times the retail value of the cigarettes involved, whichever is greater. Laws Restricting Youth Access to Tobacco Products

Minimum Age to Sell Tobacco Products to Minors

18

Compliance/Enforcement

The state Comptroller shall enforce state youth access and sales to minors' laws in partnership with local law enforcement agencies. At least annually, random, unannounced inspections of various locations where cigarettes or tobacco are sold or delivered are required. Minors may be used in compliance checks if they have written parental consent, are younger than 17, and have an appearance that would cause a reasonably prudent retailer to request identification.

TEX. HEALTH & SAFETY CODE ANN. § 161.088 (1999).

Penalties for Sales to Minors

A person commits an offense if the person, with criminal negligence, sells, gives, or causes to be sold or given a cigarette or tobacco product to someone who is younger than 18 years of age; or to another person who intends to deliver it to someone who is younger than 18 years of age. Violation is a Class C misdemeanor. It is a defense to prosecution that the person to whom the cigarette or tobacco product was sold or given presented to the defendant proof of identification. If the offense under this section occurs in connection with a sale by an employee of the owner of a store in which cigarettes or tobacco products are sold at retail, the employee is criminally responsible for the offense and is subject to prosecution.

TEX. HEALTH & SAFETY CODE ANN. § 161.082 (1998).

Sign Posting Requirements

Each person who sells cigarettes or tobacco at retail shall post a sign in a location that is conspicuous to all employees and customers and that is close to the place at which cigarettes or tobacco products may be purchased. The sign must state: "PURCHASING OR ATTEMPTING TO PURCHASE TOBACCO PRODUCTS BY A MINOR UNDER 18 YEARS OF AGE IS PROHIBITED BY LAW. UPON CONVICTION, A CLASS C MISDEMEANOR INCLUDING A FINE OF UP TO \$500 MAY BE IMPOSED. VIOLATIONS MAY BE REPORTED TO THE TEXAS COMPTROLLER'S OFFICE BY CALLING A TOLL-FREE TELEPHONE NUMBER. PREGNANT WOMEN SHOULD NOT SMOKE. SMOKERS ARE MORE LIKELY TO HAVE BABIES WHO ARE BORN PREMATURE OR WITH LOW BIRTH WEIGHT." Violation is a Class C misdemeanor.

Photo Identification Requirements to Buy Tobacco Products

A person may not sell, give, or cause to be sold or given a cigarette or tobacco product to someone who is younger than 27 years of age unless the person to whom the cigarette or tobacco product was sold or given presents an apparently valid proof of identification. A proof of identification satisfies this requirement if it contains a physical description and photograph consistent with the person's appearance, purports to establish that the person is 18 years of age or older, and was issued by a governmental agency. The proof of identification may include a driver's license issued by this state or another state, a passport, or an identification card issued by a state or the federal government. A retailer shall adequately supervise and train the retailer's agents and employees to prevent a violation.

TEX. HEALTH & SAFETY CODE ANN. § 161.083 (1998).

Purchase/Possession of Tobacco Products by Minors

An individual who is younger than 18 years of age commits an offense if the individual possesses, purchases, consumes, or accepts a cigarette or tobacco product; or falsely represents himself or herself to be 18 years of age or older by displaying proof of age that is false, fraudulent, or not actually proof of the individual's own age in order to obtain possession of, purchase, or receive a cigarette or

tobacco product. Exceptions are if the minor is with an adult parent, guardian, or spouse of the individual; if it is a requirement of the minor's employment; or if the minor is participating in a compliance check. A violation is punishable by a fine not to exceed \$250. Upon conviction, a court shall require the youth to attend a tobacco awareness program provided by the commissioner or if the program is not available, eight to 12 hours of tobacco-related community service. The court may require the parent or guardian of the defendant to attend the tobacco awareness program with the youth. The court may also suspend or deny issuance of a driver's license or permit for up to 180 days, if the youth does not demonstrate they have completed the tobacco awareness program or community service requirement.

This does not apply to a facility or business that is not open to persons younger than 18 years of age at any time, that part of a facility or business that is a humidor or other enclosure designed to store cigars in a climate-controlled environment or a premises for which a person holds a package store permit issued under the Alcoholic Beverage Code. General violation of these provisions is a Class C misdemeanor for the first violation, and a Class B misdemeanor for subsequent violations. A knowing violation or someone who knowingly submits a certification in another person's name is a third degree felony.

Failure to collect taxes is a civil penalty of five times the value of the cigarettes involved in addition to any other penalty.

Violation of this requirement is a Class C misdemeanor. It is a defense to prosecution to show proof that the employee did complete, sign and date the forms required.

TEX. HEALTH & SAFETY CODE ANN. § 161.085 (2001).

Each manufacturer shall file with the Department of Health an annual report for each cigarette or tobacco product distributed in this state, stating the identity of each ingredient in the cigarette or tobacco product listed in descending order according to weight, measure, or numerical count, other than: tobacco; water; or reconstituted tobacco sheet made wholly from tobacco. They shall also report the nicotine yield rating for the cigarette or tobacco product. This section does not require a manufacturer to disclose the specific amount of any ingredient in a cigarette or tobacco product if that ingredient has been approved as safe when burned and inhaled by the United States Food and Drug Administration or a successor entity. Each manufacturer shall also assign a nicotine yield rating to each cigarette or tobacco product distributed in the state. The department standards must be developed so that the nicotine yield rating reflects, as accurately as possible, nicotine intake for an average consumer of the cigarette or tobacco product. The information included in these reports is public information and is not confidential, unless it is determined by the Attorney General that it's disclosure would constitute an unconstitutional taking of property; if the department determines that there is no reasonable scientific basis for concluding that the availability of the information could reduce risks to public health; or the information is determined a trade secret under state or federal law. Failing to file the required report can result in a prohibition on the sale or distribution in this state of a cigarette or tobacco product manufactured by the manufacturer by court order.

Tobacco Industry Liability

When a judgment is for money, the amount of security to suspend execution of the judgment during appeal of the judgment must equal the sum of costs and compensatory damages awarded in the judgment and interest from the expected duration of appeal except the security required to be posted cannot exceed 50 percent of the judgment debtor's net worth or \$25 million, whichever is less. Use of Tobacco Settlement Dollars

Use of Tobacco Settlement Dollars—Summary

Use of Tobacco Settlement Dollars— Detailed Information

Ten percent of the MSA monies are allocated to the fund, unless this 10 percent allocation is sold to the Virginia Foundation for Healthy Youth Endowment for a lump sum payment up front. The monies are used for the purposes of discouraging, eliminating or preventing the use of tobacco products by minors, including, but not limited to, educational and awareness programs on the health effects of tobacco use on minors and laws restricting the distribution of tobacco products to minors. Moneys may also be used for the purpose of reducing childhood obesity, including but not limited to educational and awareness programs, implementing evidence-based practices, and assisting schools and communities with related policies and programs.

VA. CODE ANN. §§ 32.1-366 & 32.1-367 (2004).

The Tobacco Indemnification and Community Revitalization Fund was also created. Fifty percent of the monies received from the MSA shall be deposited into the fund subject to the sale of this money to the Tobacco Settlement Financing Corporation. If the sale occurs, all the investment income from the Tobacco Indemnification and Community Revitalization Endowment from the lump sum payment from the sale of this money shall be deposited in the Tobacco Indemnification and Community Revitalization Fund.

VA. CODE ANN. §§ 3.1-1109.1 & 3.1-1111 (2002).

WASHINGTON

Smoking Restrictions

Overall Summary of Smoking Restrictions

Smoking is prohibited in virtually all public places, including restaurants, bars and non-tribal casinos. "Public place" is defined as that portion of any building or vehicle used by and open to the public, regardless of whether the building or vehicle is owned in whole or in part by private persons or entities, the state of Washington, or other public entity, and regardless of whether a fee is charged for admission. This includes a presumptively reasonable minimum distance of 25 feet from entrances, exits, windows that open and ventilation intakes that serve an enclosed area where smoking is prohibited. See statute citation for a specific list of what are classified as "public places."

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Exceptions to the Law

A public place does not include a private residence unless the private residence is used to provide licensed child care, foster care, adult care, or other similar social service care on the premises. This chapter is also not intended to restrict smoking in private facilities which are occasionally open to the public except upon the occasions when the facility is open to the public.

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Stronger Local Laws on Smoking

Stronger local laws/ordinances further restricting smoking are not allowed due to a court decision by the Washington Supreme Court, see below.

The Washington Supreme Court ruled unanimously that the prohibition on smoking in almost all public places and workplaces in Pierce County, WA can not go into effect because the ordinance prohibits what state statute specifically allows in this case prohibiting smoking where state law allows businesses to decide whether to allow smoking or not. This means that localities in Washington are preempted from enacting clean indoor air ordinances stronger than state law.

Entertainment Industry Coalition v. Tacoma-Pierce County Health Department et al., decided 2/10/05

Government Buildings

Smoking is prohibited in "public places," which includes buildings and vehicles owned in whole or in part by the state of Washington or other public entity that are open to the public. Smoking is also prohibited in "places of employment," which include any area under the control of a public employer which employees are required to pass through during the course of employment, including, but not limited to: entrances and exits to the places of employment. Smoking is also prohibited within a presumptively reasonable minimum distance of 25 feet from entrances, exits, windows that open, and ventilation intakes that serve "public places" and "places of employment." The definition of "public place" also includes state legislative chambers and immediately adjacent hallways.

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Private Workplaces

Smoking is prohibited in "public places," which includes buildings and vehicles owned in whole or in part by private persons or entities that are open to the public, and regardless of whether a fee is charged for admission. Smoking is also prohibited within a presumptively reasonable minimum distance of 25 feet from entrances, exits, windows that open, and ventilation intakes that serve "public places" and "places of employment." See statute for a specific list of what are classified as "public places."

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Schools

Each school district board of directors must adopt a written policy prohibiting the use of all tobacco products on public school property. The policy shall include, but not be limited to: a requirement that students and school personnel be notified of the prohibition; the posting of signs prohibiting the use of tobacco products; sanctions for students and school personnel who violate the policy; and a requirement that school district personnel enforce the prohibition.

WASH. REV. CODE § 28A.210.310 (1997).

To the extent not covered by the restrictions above, smoking is prohibited in "public places," the definition of which includes schools and educational facilities, and includes a presumptively reasonable minimum distance of 25 feet from entrances, exits, windows that open, and ventilation intakes that serve an enclosed area where smoking is prohibited.

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Child Care Facilities

Smoking is prohibited in "public places," which means any building or vehicle used by and open to the public, regardless of whether the building or vehicle is owned in whole or in part by private persons or entities, the state of Washington, or other public entity, including child care facilities. A "public place" includes a private residence when used to provide licensed child care, foster care, adult care, or other similar social service care on the premises. Smoking is also prohibited in "places of employment," which include any area under the control of a public or private employer which employees are required to pass through during the course of employment, including, but not limited to, entrances and exits to the places of employment. Smoking is prohibited in the living space of any home or facility caring for foster children and in motor vehicles while transporting foster children. Adults are permitted to smoke outside away from children. This does not apply to traditional or spiritual Native American or religious ceremonies involving the use of tobacco.

WA ADMIN. CODE § 388-148-0185 (2004).

WASH. REV. CODE §§ 70.160.010 et seq. (2005).

Penalties/Enforcement

Owners or the person in charge must post signs in a conspicuous place at the entrance to a public place prohibiting smoking. Intentionally smoking in a "public place" or "place of employment" or removal or defacement of signs are punishable by a civil fine of up to \$100. Any person passing by or through a public place while on a public sidewalk or public right of way has not intentionally violated this chapter. After an initial warning, violation by an owner or person in charge of a "public place" or "place of employment" is subject to up to a \$100

civil fine each day the violation continues. Local law enforcement agencies enforce the law against individual smokers and local health departments enforce the law against owners or persons in charge of "public places" or "places of employment." No broad restrictions on smoking in state law; there are laws, regulation or policies that restrict and/or prohibit smoking in state government buildings, schools and child care facilities. See below for more details.

Exceptions to the Law

No broad restrictions in state law, so places where smoking is prohibited are the exception.

Stronger Local Laws on Smoking

Stronger local regulations by county/city boards of health further restricting smoking are specifically allowed by decision of the West Virginia Supreme Court. Stronger local laws/ordinances by city and county governments are allowed as well.

Note: In West Virginia, all 55 counties have regulations restricting smoking of varying strength promulgated by county boards of health as of January 1, 2011. All county regulations are stronger than state law.

It is the responsibility of the appointing authority to ensure that all state places of employment maintain a smokefree environment and to make both state employees and the public aware of their responsibility to ensure this smokefree environment. Therefore, smoking by employees of the state is prohibited in their places of employment and in adjacent nonsmoking spaces. Appointing authorities are not required to make accommodations for individual outdoor smoking areas. Public waiting rooms and receiving areas shall be smokefree, and smoking restrictions shall be actively enforced by the individuals responsible for those areas. State residential facilities, including but not limited to, hospitals, group homes, and prisons shall comply with this policy to the maximum extent possible.

The West Virginia Regional Jail and Correctional Facility Authority shall prohibit the use or possession of tobacco products by inmates held in facilities operated solely by the authority. The authority may establish smoking cessation programs

to facilitate the prohibition.

Compliance/Enforcement

The Department of Health, working with local law enforcement agencies and other local individuals and organizations at the discretion of the department, shall be the lead agency to ensure compliance with this article. To coordinate the enforcement of state statutes relating to the prohibition of the sale of tobacco products to minors and to comply with applicable law, the Department of Health shall have authority to contract with or provide grants to local law enforcement agencies or other local individuals

or entities to conduct random, unannounced inspections at retail locations where tobacco products are sold. Minors may be used with written consent of the minor's parents or guardian, and if specific guidelines for use of minors in such investigations are followed.

WYO. STAT. ANN. § 14-3-307 (2000).

Penalties for Sales to Minors

No individual shall sell, offer for sale, give away or deliver tobacco products to any person under the age of 18. Any individual violating this section is guilty of a misdemeanor punishable by a fine of not more than \$50 for a first violation; \$250 for a second violation; and \$750 for a third or subsequent violation committed within a 24-month period. The court may allow the defendant to perform community service and be granted credit against their fine and court costs at the rate of \$5 for each hour of work performed.

WYO. STAT. ANN. § 14-3-302 (2000).

No retailer shall sell, permit the sale, offer for sale, give away or deliver tobacco products to any person less than 18 years of age. Any person violating this section is guilty of a misdemeanor punishable by the same graduated fines listed for individuals above. In addition, any retailer violating this section for a third or subsequent time within a two-year period may be prohibited from selling tobacco products for not more than 180 days by court injunction. It is an affirmative defense to a prosecution under this section that, in the case of a sale, the person who sold the tobacco product was presented with, and reasonably relied upon, an identification card, which identified the person buying or receiving the tobacco product as being over 18 years of age. No penalty will be enforced for a first violation if the retailer can show it had adopted and enforced a written policy against selling tobacco products to persons under the age of 18 years; informed its employees of the applicable laws regarding the sale of tobacco products to persons under the age of 18 years; required employees to verify the age of tobacco product customers by way of photographic identification or by means of an electronic transaction scan device; and established and imposed disciplinary sanctions for noncompliance.

Sign Posting Requirements

Any person who sells tobacco products shall post signs informing the public of the age restrictions for sales of tobacco products at or near every display of tobacco products. Each sign shall be plainly visible and shall contain a statement communicating that the sale of tobacco products to persons under 18 years of age is prohibited by law. Violation is a misdemeanor subject to the same penalties as selling or distributing tobacco products to minors, including possible license suspension. In lieu of the fine, the court may allow the defendant to perform community service or attend a tobacco cessation program and be granted credit against their fine and court costs at the rate of \$5 for each hour of work performed or each hour of tobacco cessation program attended. This does not apply to minors participating in compliance inspections.

WYO. STAT. ANN. §§ 14-3-304 & 14-3-305 (2000).

Placement of Tobacco Products

No person shall sell or offer tobacco products through a self-service display except in a business where entry by persons under 18 is prohibited. "Self service display" means any display of tobacco products that is located in an area where customers are permitted and where the tobacco products are readily accessible to a customer without the assistance of a salesperson.
